

## Indians Victorious Over Ahoskie Team

The Perquimans Indians went back on the warpath Friday, defeating Ahoskie 27 to 14, on the home town gridiron.

The Perquimans lads were in fine form for the game, every man giving a good account of himself. The team exceeded expectations of local fans, in taking the invaders to task.

In the first six minutes of play, Hertford's Joe Nowell with the aid of good blocking, marched steadily toward the enemy goal line, going over for the first touchdown. Ernest Winslow was good for the extra point.

The next tally was made near the end of the second quarter, when a series of splendid runs by Winslow put the Perquimans boys in scoring position, enabling Nowell to go over. Again Winslow made the extra point. Score at half time was 14 to 0.

Nowell received for Perquimans on the opening play of the second half, and flashed past the entire Ahoskie team, untouched, in an 85-yard dash for the third touchdown. Winslow again tallied the extra point.

In the third quarter, the Ahoskie team went over the line for the first touchdown and also tallied the extra point.

The next score was made by Perquimans' Elmer Lassiter on an end round reverse. Try for extra point failed.

In the last quarter of the game, Ahoskie made its second well-earned touchdown. Ahoskie's Copeland kicked the extra point, bringing the final score to 27 to 14.

## Britain Needs Food, Extension Folks Told

"Every boat load of food that the United States sends to Great Britain reduces the time that will elapse before the democracies of the world triumph over Hitlerism," Paul H. Appleby, under-secretary of agriculture in Washington, told the 400 Extension Service workers in convention at State College in Raleigh this week.

Appleby was one of the principal speakers at the conference of all county farm and home agents, assistant agents, and Extension specialists and administrative leaders. He gave a report on his recent trip to England as a representative of the U. S. Department of Agriculture, upon the invitation of the British government.

"The United States has been called upon to feed 25 percent of the British people—or about 10 million persons—this winter and throughout 1942," Appleby declared. "Food is extremely short in England, but our ships are reaching the other side of the ocean and conditions are constantly improving," he continued.

The Government official said that he lost eight pounds, and his companion on the trip, R. M. Evans, National AAA administrator, lost 10 pounds, during the four weeks they were in England and the two weeks they spent in Portugal. He said they each had only one egg to eat in four weeks, and at no time did they have milk to drink.

Appleby told the Extension workers that they have a big job to do in seeing that the Nationwide "Food for Freedom" campaign is successful. "North Carolina needs to increase its egg production by 11 percent, and its milk production by 4 percent, in 1942," he said, "and you county farm
