

## TOWN AND FARM IN WARTIME

### Gas For Victory Gardeners

Victory gardeners planning to cultivate plots away from their homes will be eligible for extra rations of gasoline this summer, if they can show need for extra mileage, the OPA announced. Mileage rationing regulations are amended to provide up to 300 miles for six months for victory garden travel, if the car owner is: 1. Is regularly cultivating a tract of vegetables 1,500 square feet or more. 2. Cannot get to his garden any other way and shows his labor is necessary to it. 3. Arranges, if possible, to share his car with other gardeners.

### War Expenditures—1918 and 1943

In 1918 American war expenditures were only 18½ billion dollars—in 1943 they will exceed 100 billion dollars. These figures show sharply the difference in cost between the last war and this one. There were four liberty and one victory loan drives in the last war, with a total goal of less than 19 billion dollars, but to finance the present war the people of the United States must raise about 70 billion dollars before the end of this year. In that war, our task was chiefly to fortify a line of trenches in France—in this war we must equip and supply our armies on all the far-flung battlefields of the world.

### Change In Tire Ration

Effective May 1, passenger car drivers with mileage rations exceeding 140 miles monthly are eligible for any grade of new tire when their present casings are not recappable. Formerly, Grade I casings were reserved principally for drivers with mileage rations over 560 monthly.

### Job Records of High School Students

To help high school students find their proper place in the army (or in war industry), each one will soon be asked to make a card record of his school and job history. These "educational experience summary record" cards will contain such information as a student's academic standing and achievement, vocational and pre-induction preparation, wage earning experience, aptitudes, significant hobbies and social security number.

### Casualty Totals

Announced casualties of the United States armed forces from the outbreak of the war to date (whose next of kin have been notified) total 78,235. This total, arrived at by combining war and navy reports, includes—dead, 12,123; wounded, 15,049; missing 40,435, and prisoners of war, 10,628.

### Replacements For Tractor Tires

Replacement tires can be obtained for farm tractors when there are no recapping facilities available, the OPA has announced. Formerly, no replacements could be had for tires which were in recappable condition.

### "Lay Away" of Shoes

Shoe dealers cannot hold or lay away shoes for customers beyond the end of the period in which a current war ration shoe stamp is valid unless they receive the shoe ration stamps in advance, the OPA has announced. Another amendment provides that house slippers and moccasins designed for indoor use only are not rationed.

### Ceilings On Washing Machines

Maximum prices for used washing machines sold by dealers, auctioneers and individuals have been established by OPA. Rates for rental of used washers limit prices to \$4.50 for the first month, and \$3.50 monthly thereafter, regardless of the type of machine rented.

### War-Time Dairy Barn, Fences, Gates

Plans for a dairy barn that uses a minimum of critical materials may be obtained free from the U. S. Department of Agriculture, Washington, D. C., by writing for a leaflet on "A Wartime Dairy Barn." How to make fences and gates with a minimum of metals can also be obtained by writing for the folder "Wooden Fences and Gates."

### New Ceiling On Beef and Lamb

Retail ceiling prices for beef and lamb will be reduced one to three cents below the ceilings originally scheduled to take effect April 15. The new prices become effective May 17 and will be uniform throughout the country for stores of the same type.
