

TOWN AND FARM IN WARTIME

Insurance For Soldiers

All North Carolina soldiers can get financial protection through the National Service Life Insurance program, if they act before midnight of August 10, the War Department has announced. Maximum policy is \$10,000. The payments will be made to beneficiaries only in monthly installments.

Tobacco Can Be Sent To Prisoners

U. S. war prisoners and civilian internees held by Germany and Italy can receive cigarettes, cigars, smoking tobacco, or chewing tobacco sent by relatives and friends under a program worked out by several government agencies and the American Red Cross. The plan will be extended to include persons held by Japan whenever facilities are available for routing the products to them. Under the program, the next-of-kin of each identified United States war prisoner and civilian internee will receive (without asking for it) two tobacco labels every 60 days. These are to be forwarded, with a money order, to a tobacco manufacturer, who will send the tobacco. No postage or federal excise tax need be paid. Each label is good for three cartons of cigarettes, or 12 packages (one carton of two-ounce packages) of smoking tobacco, 100 cigars, or approximately 24 ounces of chewing tobacco. Smaller amounts or mixed packages cannot be ordered.

Crop Corps Certificates

Certificates of service will be awarded to all persons who work on North Carolina farms this year in the U. S. Crop Corps, and to those who work in canning and other food processing plants, the War Food Admin-

istration has announced. The certificates will be presented "for patriotic service on farm or in a food processing factory" and will bear the signatures of Chester C. Davis, war food administrator; Paul V. McNutt, chairman of the War Manpower commission, and Dean I. O. Schaub, State director of Agricultural Extension.

No Point At All

Grocers in rural areas in North Carolina who have been refusing to sell dried and dehydrated soups without the surrender of ration points are reminded by the food rationing division of OPA that these soups must be sold point free, as they have been completely removed from the rationing program.

Sewage Facilities For Homes

North Carolina home owners now can obtain some sewage facilities by having their municipal authority write a letter to WPB. The letter must certify that the work is properly authorized, that it will require less than \$1,500 for underground and less than \$500 for above-ground construction. The letter itself constitutes an authorization to connect sewage facilities.

Revised Feed Prices

Savings to State farmers are expected to result from OPA's revision of retail prices of animal and poultry foods. Previously, the retailer has been allowed a fixed mark-up of \$7.50 a ton on all kinds of feeds. Now feeds have been classified, and there is a schedule of mark-ups ranging from \$5.50 to \$10 a ton.

No Quota Used For Truck Tires

An eligible truck operator who is unable to get rationing certificates

Hitler's Children

for new tires because his rationing board has exhausted its quota can obtain certificates for used tires instead, according to OPA. Local boards in the State have been authorized to issue used truck tire certificates without regard to quota restrictions.

Poultry Black Market

The poultry situation in North Carolina is vastly improved, the OPA says. Simplification of the regulations, plus wide dissemination of information as to just what the regulations are, tended to eliminate the black market as far as the law abiding producers and dealers were concerned, the OPA explained, and vigorous prosecution of violations convinced the minority group that was deliberately dealing in black market poultry that that type of business doesn't pay.

BELVIDERE NEWS

Guests in the home of Mr. and Mrs. J. G. Chappell Sunday included Mrs. Fernando Chappell and children, Mr. and Mrs. G. R. Twine and sons, Mrs. P. E. Chappell and daughters, Mr. and Mrs. Herbert Chappell and son.
