## From where I sit

by Joe Marsh

Sam Abernethy's the Chief Rumor-Spiker in our town.

If a stranger gets off something like—"I hear they've sunk the S. S. Bumblebee," Sam starts pinning him down. Did he really see it? Where's the evidence?

Because Sam knows, like the rest of us, that nine-tenths of the "inside news" passed around by careless folk isn't rumor—it's lies planted by the Axis to destroy American morale.

Take those rumors about drinking in our Army Camps.

Actual, official facts from the government's own Office of War Information showed there wasn't a shred of truth in 'em.

The boys enjoy a glass of beer occasionally—same as a lot of us do!

And from where I sit, they're proving themselves the healthiest, best-disciplined bunch of fighting men in history, like the OWI report stated. That's good enough for me.

# IMPORTANT ANNOUNCEMENT

## ★ FROM YOUR PULPWOOD COMMITTEE

THIS Committee is starting a drive to cut more pulpwood trees. The shortage is serious . . . and pulpwood is urgently needed for everything from blood plasma containers to parachutes . . . from shell cases to airplane parts . . . from gas mask filters to explosives.

Our Government is asking every able-bodied woodcutter and farmer to pledge 3 extra work days this year (at regular pay) to cut pulpwood . . . 2,500,000 extra cords are needed quickly.

This is a challenge to everyone of us in this community. We must not let our boys down. 3 EXTRA days' work are little to ask when our boys are out there giving their lives for their country.

Enlist today in this drive. Wear the button that shows you are in this fight. This is one way this community can help win this war.

Come to Committee headquarters or get in touch with any of these men. And do it quickly.

This pulpwood shortage is a national war emergency.
