Burlap Bag Quotas Removed

Quotas on farmers' and packers' purchases of new burlap bags for packing "Certain agricultural products" includes, but is not limited to, beans, cotton, feed, flour, meal, fruits, potatoes, vegetables, and tobacco. The restriction on the bag sizes permitted for certain commodities has been relaxed to allow an additional size for each of two types of seed. A 1/2-bushel bag is allowed for hybrid seed corn, a 3-bushel bag for cottonseed. These are in addition to the sizes previously permitted.

No Dates On Kerosene Coupons

Persons who use small amounts of kerosene for domestic cooking and lighting may now get renewal rations for periods longer than the six months formerly permitted. This provision of a recent OPA amendment is to reduce the number of renewal applications by the consumer and the amount of paper work performed by the rationing board. The amendment provides that rations issued for domestic cooking and lighting no longer will bear dates of issuance and expiration, and coupons may be used as long as they last. The rationing board may issue the ration for any period up to a year from date of application. The maximum ration allowed for domestic cooking has been increased to 30 gallons a month for the first seven persons. It was formerly 24 gallons for six or seven persons.

Prices Set For Dry Beans

Sales of dry edible beans, 1943 crop, to the Food Distribution Administration, to other country shippers, and to other governmental agencies designated in Food Distribution Order No. 45 can be made at either of two sets of prices—maximum prices established for the commodity or support prices set for specified classes last April by the War Food Administration. OPA emphasized that all other sales must be made at or below maximum prices established in Maximum Price Regulation No. 270.

Housing Down Payments Cut

Down payments required to buy housing in rent-controlled areas has been reduced from 33 1/3 percent to 20 percent. OPA amended the regulation because of easing in the housing situation.

About Those Free Matches

If your tobacco dealer gave you free matches—the wood or the book variety—during March, 1942, when he sold you your tobacco products, he must continue to give them to you now. Sales through vending machines are included in the new OPA ruling on matches.

Anti-Freeze Distributed

To insure an ample supply of volatile anti-freeze mixtures for passenger cars in 14 Western states before cold weather sets in, WPB has ordered industrial alcohol manufacturers with national distribution to supply specified quotas to the states upon receipt of orders from dealers. Each state will receive a supply equal to one and one-half gallons per passenger car registered. States involved are: Arizona, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming.

From where I sit
 by Joe Marsh

"Well," says Judge Cunningham. "I see they've got it!"
 "Got what?" I says.
 "Look," beams the Judge. And he pulls out an article about a "couple of beers" is reflecting on good citizens everywhere who enjoy a quiet glass of beer with their meals—sittin' with their friends or just relaxing after a day's work. Moderate folks like that are entitled to consideration.

And of course it isn't. Because a couple of beers, enjoyed with friends, is a way people keep out of trouble, not get into it!

From where I sit, I certainly agree with the Judge. The fellow with the alibi about a "couple of beers" is reflecting on good citizens everywhere who enjoy a quiet glass of beer with their meals—sittin' with their friends or just relaxing after a day's work. Moderate folks like that are entitled to consideration.
