### Agriculture Preparing For 1944

Easing of the rationing restrictions on farm machinery, increased production of new farm machinery, and a campaign among farmers to "Keep Your War Equipment Fit and Fighting" are indications of plans now being laid by the War Food Administration to meet increased production goals for 1944. Suggestions for expanded wartime production have been sent for consideration to state Agricultural War Boards and other farm representatives. State boards have been asked to set 1944 goals. The national program calls for a record-breaking 380 million acres in crops. Problems relating to labor, machinery, supplies, conservation practices, and prices will be considered at 48 state meetings of state groups with representatives of WFA during October.

### Potato Prices

**4% Interest On Land Bank Loans**  
Action taken recently by 12 Federal Land Banks will substitute a 4 percent interest rate for higher rates on 98 percent of the loans made by the land banks prior to June 24, 1935. "The land banks' 4 percent rate is the lowest at which farmers generally ever have been able to obtain long-term mortgage credit," A. G. Black, governor of the Farm Credit Administration, said.

**To Prepare Engines For Winter**  
Anti-freeze used last winter and saved for re-use this winter should be tested. In time anti-freeze loses its strength and its non-corrosive properties. Nearly all manufacturers of permanent types of anti-freeze have made up acid and rust inhibitors for restoring resistance of used anti-freeze. In adding new material, it is wise, the Office of Defense Transportation says, to use the same brand used in the first place. A free pamphlet entitled "Cooling System: Cleaning, Flushing, Rust Prevention, Anti-freeze," tells about the care of water-cooling systems in engines used in automobiles and farm equipment will be sent to those who request it. Address: Office of Information, ODT, New Post Office Building, Washington, D. C.

**About 4-H Club Livestock Sales**  
Livestock produced and sold under the auspices of 4-H clubs is governed by the meat rationing regulation the same as other livestock, according to OPA. This means that only persons who may obtain custom slaughtered meat points free are livestock producers. However, OPA permits such recognized boys' and girls' farm organizations as 4-H Clubs to sell their livestock at a fair, exhibition, or an animal show at premium prices, as money from such sales usually helps provide educational funds for club members.

**Ammunition Prices Set**  
Ammunition for civilian use will be sold at or under prices prevailing in March, 1942, according to OPA ceilings which become effective October 7. Retail ceilings on boxes of 25 shotgun shells are \$1.38 for 12 gauge and \$1.32 for 16 and 20 gauge. Re-

tail ceilings on boxes of 50 rim fire cartridges are 34 cents for .22 long rifle and 21 cents for .22 short, regular. Retail ceiling prices on boxes of 20 center fire cartridges range from \$1.41 to \$2.10, according to brand and type. Ammunition stores are required to post ceiling prices but may sell at lower prices.

### Poultry Price Changes

Reductions of 3½ cents a pound at retail in maximum prices of quick-frozen eviscerated poultry and 1 cent a pound on drawn poultry, and an increase of 1 cent a pound on dressed poultry have recently been announced by OPA. These price changes became effective October 12, 1943.

### Landings Are Getting Tougher

In a letter to a friend, vividly describing the American invasion of Italy at Salerno, William J. Forsythe, Chief Photographer's Mate, U. S. C. G., said: "These amphibious landings are getting monotonous in a ghastly sort of way. They're getting tougher as we go along, and don't let anybody kid you that the United States isn't paying a price for such places as Sicily and Salerno. Of course, the radio reports and newspaper headlines sound very encouraging to the folks back home, but there's a lot of American boys getting killed, but I suppose that's the price of war."

### To Relieve Leather Sole Shortage

Synthetic rubber and plastics will be used to help relieve this winter's leather shoe sole shortage, according to WFB. The output of rubber soles will be used on rationed shoes and for shoe repair.

### Help Farmers Get Truck Parts

Farmers unable to get needed parts for trucks can get help by taking the matter to the nearest Office of Defense Transportation office. The ODT has 142 district offices throughout the country, each with a maintenance specialist and a special Maintenance Advisory Committee on which are garage and service station men, dealers, and parts suppliers with a special duty of helping find needed parts.

## Kidneys Must Work Well—

**For You To Feel Well**  
24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly. Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at night, swelling. Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulate the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

## From where I sit...

by Joe Marsh

"Your outfit looked mighty fine in the parade," I told Ed Carey, our fire chief. "Everything polished within an inch of its life, and the men pert and snappy!" "That's how it should be," said Ed. "We have Thursday turnout inspections... and surprise inspections in between!" That sort of supervision is well repaid in the efficiency of our town's fire department. It's like the way the brewers do in this state. They watch all the time, not

because they're looking for things to be wrong but... well, just an ounce of prevention! The brewer's self-regulation program is just a form of vigilance that protects everybody. Like the fire department's inspections, it keeps things the way they ought to be. From where I sit, most people approve of the way the brewers run things these days.

# A Suggestion!

## Renew Your Subscription Promptly

Our government requests us not to engage in "Rumor Shortages," flying talk in connection with coming shortages and rationing of this and that . . .

But the freeze on newsprint has already reached many of the larger daily newspapers. If the war continues, it is only a question of time until the freeze reaches smaller dailies and non-daily newspapers. It may come next week, next month or next year.

## When The "Freeze" Order Comes OUR CIRCULATION WILL BE FROZEN AS OF THAT DATE

If your subscription has expired we will not be permitted to renew it. If you want to subscribe, we will not be permitted to enter you on our subscription lists until other subscribers give up their subscriptions. You must await your place in line.

In other words, we will be permitted to print the exact number of papers for which we have paid subscribers, the regular number for our files and service copies . . . and no more.

This statement has no official status; it is nothing more than a suggestion we feel we owe to our subscribers. Renew your subscription promptly before it expires; if you are not a subscriber at present and want to have your name entered, we solemnly advise you to do so at once. After the freeze order comes, it will be too late.

Notices are now being mailed to subscribers whose subscriptions have just expired or will very soon expire, and we urge the renewal of these subscriptions at once.
