Fuel Oil—Period 3 coupons are good through March 13 in all areas except the South. Period 4 coupons are good in all areas through September 30. Period 5 coupons are good in the Middle West and South and remain good through September 30.

Shoes—Stamps No. 18 in Book One and No. 1 on the airplane sheet in Book Three are each good for one pair.

Income Tax—March 15 is deadline for filing returns. Earlier filing is desirable.

Ration Tokens In Use Sunday

During the three-week period, February 27 through March 20, in changing from the old rationing program to the simplified token plan, two sets of stamps, green and blue, will be used for processed foods, and two, brown and red, for meats and fats. The old stamps, brown and green, will be used exactly as in the past at their regular face value through March 20. The token plan will be fully in effect on March 21. Beginning then, processed foods can be purchased only with blue stamps and blue tokens, and meats, fats and oils only with red stamps and red tokens. The blue and red stamps, effective February 27, are valued at 10 points each. All tokens are valued at one point each and will be given for change only when a purchase is made. No more than nine tokens need be given as "change" in one transaction.

Rubber Footwear Prices Up

An average increase of 6½ percent in retail ceiling prices of waterproof rubber footwear—rubbers, arctics, gaiters, and rubber boots—has been allowed by the Office of Price Administration to compensate for increased costs. For these higher prices, the public will get rubber footwear more nearly approaching the quality of pre-Pearl Harbor footwear than that of the Victory Line products, OPA said.

Announces More Support Prices

Support prices proposed by the War Food Administration for hay and pasture seeds in 1944 are in general higher than those of last year. Increases of 3 cents per pound were proposed for northern alfalfa, red clover, alsike clover and biennial yellow sweetclover, and of 2 cents a pound for biennial white sweetclover and sudan grass. Western grasses would be increased as much as 50 percent because of harvesting difficulties, and several grasses appear on the support program for the first time this year.

Less Paper Work To Build

Less paper work for persons who build privately-financed housing construction is assured by War Production Board order P-55-C. This order, announced jointly by the WPB and the National Housing Agency eliminates filing of a detailed list of materials and permits use of materials that will conserve lumber and fuel. A simplified procedure for farm

housing, which was excluded from order P-55-C, was provided in CMP Regulation 6, Directional, effective February 15.

Fruits-Vegetables Set Aside

Canners were directed to set aside increased quantities of canned fruits and vegetables from their 1944 production for Government requirements in order to meet expanded military needs, the WFA announced. The increases principally are for canned apples, fruit cocktail, peaches, pears (Bartlett) lima beans, sweet corn, peas, tomatoes, and tomato juice.

Round-Up

WPB has authorized production during 1944 of 1,400 motorcycles for essential domestic civilian use, 80 for Canada, 650 for export, and 50,000 for military use. Use more potatoes in 1944 is the recommendation of WFA following the harvesting of the largest potato crop in history last year. WPB expects a limited number of domestic electric ranges to be available for essential civilian needs during the last half of this year. U. S. war expenditures in January amounted to \$7,416,000,000, almost 7 per cent over December, and an average daily rate of \$285,200,000. Because of problems in getting feed, U. S. production of hatchery chicks in January was 20 per cent under January last year. Total retail sales for 1943 were \$63,269,000, an increase of 10 per cent over 1942, according to the Department of Commerce. Boys and girls under 20 who leave home seeking war jobs should carry with them proof of their age, advises the U. S. Department of Labor. Copper may now be used in the manufacture of automobile radiators, gaskets, fuel and oil lines, brake and clutch lining rivets and other essential parts, according to WPB. "Small business is more important to this nation today than ever before," declared Donald M. Nelson, chairman of WPB, and should be given top priority when surplus materials of war are released. Although the points-for-fats plan did not go into effect until December 13, fats collections for December were 33 per cent over November, WPB reports. If war food goals are to be met all available red clover seed must be planted this year, WFA asserts. WPB has reduced the 1944 manufacture of paper towels for home use to 80 per cent of the 1942 base period output. Farmers will have more potash salts for fertilizer use this year than during the two preceding years, WPB announces. A general retail price reduction to the consumer of chinook salmon is expected to result from the establishment by OPA of a 20 cents per pound ceiling price for certain producers.
