Processed Foods—Green Stamps K, L, and M are good through March 20. **Blue 10-point stamps AS, BS, CS, DS, and ES in Book Four** are good through May 20.

Sugar—Stamp 30 in Book Four is good indefinitely for five pounds. **Stamp 40 in Book Four** is good for five pounds of canning sugar through February 28, next year.

Gasoline—In 17 East Coast states A-9 coupons are good through May 8.

Tire Inspection Deadlines—For A-coupon holders, March 31, and for B and C coupon holders, May 31.

Fuel Oil—Period 3 coupons are good in all areas through September 30. **Period 5 coupons** are good in the Middle West and South and remain good through September 30.

Shoes—Stamps No. 18 in Book One and No. 1 on the airplane sheet in Book Three are each good for one pair.

Income Tax—March 15 is deadline for filing 1943 returns. Date for filing 1944 Declarations of Estimated Income and Victory Tax is extended to April 15.

Check On Coupon Endorsement
Beginning the week of March 6, OPA will attempt to check all gasoline ration books to see that the coupons are properly endorsed with license number and state, as part of the nation-wide campaign against black markets in gasoline. Motorists found with unendorsed coupons will be notified to report to their local board within 10 days with endorsed books. Anyone who fails to do this faces revocation of rations.

New Ceilings On Various Items
The Office of Price Administration recently established price ceilings on several items. For consumers, a reduction on Virginia type dried pork products—5 to 6 cents a pound on whole or half hams; 6 to 7 cents a pound on sliced ham; 4 to 5 cents a pound on bacon; 3 to 4 cents on sides; 2 cents on jowls and 5 cents on shoulders. New ceilings on goat meat represent moderate reductions set by geographic zones. Highest-priced goat meat under the new order is "cabrito" which sells for 30 cents a pound retail. Soybeans of the 1943 crop to be processed for oil are \$1.86 a bushel for base grade and \$1.92 a bushel for highest quality. Prices for fruit and vegetable pack will apply to this year's pack until a 1944 price is set. Yellow cypress lumber was increased \$3 to \$4 per 1,000 board feet for producers—to be passed on to consumers. A 20-cents-per-pound producers' ceiling was set on all round chinook salmon and 24 cents on drawn chinook, on catches in California, Oregon, and Washington (except Sacramento river catch) effective through March. New prices on alfalfa hay products mean an increase of about 15 to 20 cents per ton of food consumption—for all states except California, Washington, Oregon, Nevada, Utah, and parts of Idaho.

Farm Gasoline Rations
Six-month gasoline rations for non-highway use on farms may be issued in installments rather than all at one time, as in the past, the OPA has announced. If the local board has issued only part of his ration, when the farmer needs more gasoline he makes no formal application but simply asks the board for it. The board then either will issue the remainder of the total six-month ration as originally determined or issue such portion of the remainder as the board decides the farmer needs for the rest of the six-month period.

Armed Services Need Nurses
An additional 2,000 nurses are needed for the U. S. Army Nurse Corps by April 1 to replace hundreds of Army nurses being sent overseas in connection with plans for a European invasion. The American Red Cross, recruiting agency for

nurses, reports that the Navy Nurse Corps, which has completely exhausted its reserve, also needs 500 additional nurses each month during 1944.

Less Sugar For Civilians
U. S. civilian supplies of sugar will be 6 per cent less than 1943 consumption, according to WFA, due to use of sugarcane molasses for industrial alcohol, to increased needs of the armed forces and our Allies, and to wartime shipping conditions.

Round-Up
Nearly 40 per cent of all vegetables grown for fresh consumption in the United States last year came from Victory gardens, the War Food Administration reported. . . WFA says that 52,000 Mexican nationals will be needed to help relieve the farm labor shortage in the United States this year. Approximately 14,000 are already in this country. . . Living costs for city families decreased two-tenths of one per cent between mid-December and mid-January, the Secretary of Labor reports. Although services continued to increase in cost, both food and clothing costs declined. . . OPA has granted Regional Administrators authority to recommend that slaughterers who wilfully violate any OPA meat regulation be deprived in whole or in part of their subsidy payments. . . OPA suggests that retailers keep a reserve of one-point green and brown stamps on hand during the first week or two ration tokens are used, in case they have underestimated their token needs. OPA has ordered a reserve of 2 million tokens to be ready not later than April 7. . . A food producer who wishes to get electric power extension for water to irrigate as much as five acres of land may apply to his County Agricultural Conservation Committee, WPB has announced. . . WPB has authorized the manufacture of approximately half a million enameled cold pack canners with a jar capacity of seven one-quarts, nine one-pints, or four half-gallons, to be available for this canning season. . . Rye is not a desirable alcohol-producing grain, and use of large quantities of rye for this purpose is not likely at present, WPB says. . . Because more batteries are needed for walkie-talkies, bazookas, signal lights, and other war equipment, WPB says there is little chance for an increased supply for civilians this year. . . WPB will permit limited production of electric flat irons for civilian use, but few of the new irons are expected in retail stores before mid-year. . . More than 3,000 trucks for civilian use—almost exactly the number planned for—were produced in January, according to WPB. . . WPB has set the 1944 quotas for new glass containers for wines and distilled spirits at 100 per cent of the number used in 1943 and for non-alcoholic beverages at 80 per cent of the number accepted by the packers for this use in 1941. . . Orange shellac having an OPA ceiling price of 45.1 cents per pound or higher is now available for home use in finishing floors and furniture and for manufacturing and repairing furniture.
