## THIS WEEK'S HEADLINES

After pausing, evidently to reorganize their forces, the Germans launched a renewed drive on Christmas Eve and have pushed an additional 10 miles into Belgium, according to reports from the Western Front. The Nazis were reported to have advanced four miles from the Meuse and close to several important communication centers being held by American troops. Reports say American forces are fighting fiercely to every inch of territory, and reinforcements are being sent forward to stem the Nazi advance. The German advance has now carried them some 60 miles into Belgium since their attack opened, and casualties have been reported as heavy on both sides.

The Germans are reported to be using two and possibly three armies in this drive, and some reports state that the drive is being directed by Hitler. Many Germans were seen through the American lines dressed in American uniforms and riding in American jeeps and trucks in order to gain time for sabotage. When captured these Nazis are shot as spies. It has been reported the American forces have stopped the Nazi's flanking movement and are holding at all points other than the 35 mile break through in Belgium.

Weather conditions were somewhat better early this week over the European area and the Allied air force flew more than 21 thousand sorties against the Germans in an effort to break up the Nazi drive. The Germans have been using their planes, too, in greater number than any time since D-Day. Allied reports say 500 German planes and 4,000 vehicles have been destroyed by the Allied planes.

Russian troops have renewed their drive for Budapest by closing an escape corridor, and smashing one and a half miles into the city, a London report announces. Berlin also reports the Reds have started their winter offensive in the Baltic section, but Moscow has not released an account of this front to date. No action is reported on the Polish front.

U. S. Army forces of the 77th Division captured Palompon and all but ended the fighting for the island of Leyte, according to a report from General MacArthur. American planes have blasted Jap air fields in the Manila area, and troops continue to advance on Mindoro. Heavy B-29's have raided the Jap homeland and caused heavy damage to Jap production plants.

Little change is noted on conditions inside Greece. Both Churchill and Anthony Eden are reported in Athens, but fighting continues. Members of Elmas are demanding an election at once to determine the Greek form of government. Nearly a ton of explosives were discovered in a sewer beneath one of the hotels housing high Greek and British officers.

### Stores, Schools Open On New Year's Day

Hertford's stores and business offices will be open on New Year's Day, according to a survey made of the community area this week. One exception will be the Hertford Bank, which will observe the holiday. The Johnson county school superintendent stated that schools will be closed on January 1st, and will resume on schedule to complete the semester.

## LORD HAS BEEN GOOD TO FARMERS OF STATE IN YEARS OF WAR, SAYS COLTRANE

Pointing out that "the Lord has been good to us, sending us favorable seasons during these years of war," D. S. Coltrane, assistant to the Commissioner of Agriculture, has reported an 8 per cent increase in the production of corn in this State in the past two years; a 25 per cent increase in wheat; a 23 per cent increase in oats; and a 254 per cent increase in the production of barley. Other increases over the pre-war period from 1932 to 1941: cotton, 9 per cent; tobacco, 8 per cent; Irish potatoes, 33 per cent; lespedeza seed, 66 per cent; soybeans (for beans), 37 per cent; and peanuts, 25 per cent. "We have made the most of opportunities afforded us by nature by producing, despite serious shortages of labor, farm machinery, fertilizer, and other essentials, the greatest volume of food and fiber in the history of the State," asserted Coltrane. As for livestock, he said that there has been a 253 per cent increase in the production of broilers; a 10 per cent jump in the number of cows and heifers; a 35 per cent rise in the number of hogs on hand; and an increase of 11 per cent in the production of milk. The 10-year (1924-33) average cash income from crops, livestock and Government payments was \$214,298,000, while that for the years 1940 and 1941 was \$258,576,000, and that for 1942 and 1943 was \$493,818,000, according to Coltrane.

## Local Soldier Serves In Fighting In Italy

With The Fifth Army, Italy—Ernest Lane, son of Mrs. Caroline Lane, Route Three, is fighting in Italy with the 398th Infantry Regiment, which has been credited with killing and wounding many hundreds of Germans and taking nearly 700 prisoners in four weeks of cold, bitter fighting in the Gothic Line. They are called the "old timers," these men and officers of the 338th, part of the 85th "Custer" Division in Lieutenant General Mark W. Clark's Fifth Army. They are veterans of bloody Solomonic Ridge and the Gustav Line, Formia, the Gaeta Peninsula and Rome. They are now standing at the approaches to the Po Valley, a long haul from Minturno, where the regiment entered the lines on last April 21. The First Battalion led in the capture of Mount Altuzzo, 3,000 feet of "straight up" rock, key to the vital H Gogo Pass, major objective of the 5th Division. This same unit staged an amphibious landing to occupy Sperlonga above Gaeta last May. Earlier, a company in the 2nd Battalion seized a strategic position in the Gustav Line and held it against a desperate German battalion for three days. This feat was almost duplicated by the same company in attacking Mount Zanobi above Frenzuela and holding the peak all day against four Jerry counterattacks, including two with tanks which fired directly into the GI's foxholes. The 2nd Battalion, one of the first Allied units to enter Rome, defeated elements of the German crack 4th Paratroop Division in the H Gogo Pass drive. The "old timers" of the 338th have won three Distinguished Service Crosses, 35 Silver Stars and more than 200 Bronze Stars.
