Advertising rates furnished by request.

FRIDAY, MARCH 23, 1945

**TO SERVICE MEN**

To those of you who have been receiving The Perquimans Weekly through the generosity of the Hertford Banking Company, we want to report that the Bank has renewed your subscription for another year. The Bank sincerely hopes, by getting the paper, you will be able to keep up with the home county and town; it wants you to know what is happening back here and above all, the Bank wants you to stay interested in your home county and to return here to resume your place in the community when the war is done.

The subscriptions renewed by the local bank are to you fellows whose address was obtained a year ago, and to whom The Weekly has been going out to since that time. Your address is important, so we ask you to keep us notified of any change in order that we might expedite the mailing of same. Do this by writing the bank or to us direct, enclosing any change of address.

**Over The Top**

Once again the people of Perquimans County have answered a challenge and now can be justly proud of the fact that the 1945 Red Cross War Fund drive has been over-subscribed, with still a few scattered reports to be made that will swell the total contribution to a new high.

Certainly the hundreds of men and women from this county in the armed forces will have the right to feel justly proud of the home folks for the part just played in raising funds for the organization which is doing so much for those men and women.

Frankly, we must confess that we were doubtful that the campaign would be concluded successfully so soon, but we, too, are proud that our county has been among the first in the entire State to notify Red Cross headquarters that the goal was achieved.

The task of raising the quota in this drive was no easy one, and we offer congratulations to the leaders of the campaign and to each of the solicitors and to each person who contributed to make the Red Cross drive a success. It was a job well planned and completed.

**HOSTESS TO BRIDGE CLUB**

Miss Mary Sumner was hostess to her bridge club Tuesday evening at her home on Church Street. Those playing were Mesdames H. C. Stokes, T. L. Jessup, C. R. Holmes, G. W. Barbee, C. M. Williford, Jack Brinn, Max R. Campbell and the hostess, Miss Sumner. High score prize went to Mrs. Holmes, low to Mrs. Jessup and the bingo prize was awarded Mrs. Campbell.

*Yes Sir, IT'S PERFECTLY NATURAL*

Preference for Chilean Nitrate is Just as Natural as the Product Itself

Doubly Lucky...Pop brings home a soldier son on furlough, and natural nitrate to side dress the crops.

Good farmers—for over a hundred years—have hauled natural nitrate for their crops. Since 1830, when the first nitrate cargo arrived from Chile, millions of tons have been used on American farms . . . 3,300,000 tons since the outbreak of the war. This year's supply of Chilean Nitrate depends largely on ships available to bring it in. If everyone takes his share promptly when offered, at least 850,000 tons can be supplied for this year's crops.

While some nitrate normally goes into mixed fertilizer, most of it is applied direct to the crop—top dressing for grains and grasses, side dressing for corn and cotton. Direct application to fruit and vegetable crops is vital to yield and quality.

Chilean Nitrate is quick-acting inorganic nitrogen. It is immediately soluble in normal soil moisture. It is all available to the crop. But beyond all this, Chilean Nitrate is natural . . . the only natural nitrate in the world. Because of its natural origin, Chilean Nitrate of Soda contains, in addition to large proportions of nitrogen and sodium, small amounts of boron, iodine, manganese, copper—34 different elements in all—many of which are known to be essential to healthy plant growth.

Good farmers the world over have learned by experience to prefer Natural Chilean Nitrate of Soda. In experiments, test plots and in the field, it has demonstrated its worth. It is the safe, sure nitrate for your crops.

Easy to Handle . . . Easy to Use  
Natural Chilean Nitrate comes in two forms—Champion brand and Old Style. It reaches you in the mechanical condition, in even-weight bags, for easy storage and handling.

**Natural CHILEAN NITRATE of SODA**

and Mrs. R. M. Riddick, Mr. and Mrs. Koonce, Mr. and Mrs. T. B. Sumner, Mrs. R. S. Monds, Jr., Mr. and Mrs. and Henry Newbold. High score J. R. Futrell, Mr. and Mrs. B. G. prize for the ladies went to Mrs. Futrell, high for the men was awarded Mr. Monds and the guest of honor was presented a lovely gift.

**FROM EVERY ANGLE**

WITHOUT THESE BASIC FEATURES NO MACHINE QUALIFIES AS AN ALL-PURPOSE FARM TRACTOR

A SHORT TURNING RADIUS is vital for row-crop farming. Farmalls turn in 7 to 9 feet. Tricycle design, and individual wheel brakes that enable tractor to pivot on either rear wheel, are indispensable features.

FARMALLS HAVE AMPLE clearance for cultivating a large variety of crops. Rear wheel treads can be set to accommodate practically any row spacing. On every job the operator has a clear view of the work he is doing.

**FARMALLS ARE FIRST**

ANY MAN WHO BUYS A TRACTOR buys it for one big reason: *the work the tractor will do.* The quality of work, the volume, and the variety are the real measures of tractor value. Couple these factors with original cost, plus upkeep and operation, and you have the whole story.

That's the way most farmers figure it out when they make this important investment. *The answer has turned out to be a Farmall tractor more times than all other makes combined.*

That doesn't happen by chance. It happens because these famous red tractors are designed and built to do more work, better work, and a bigger variety of work per dollar of cost than anything else on wheels.

At the right are a few basic reasons behind Farmall tractor performance. We will be glad to demonstrate how Farmalls, with their complete line of related tools and machines, make up the most efficient system of power farming in existence.

Those are the big things to remember when you plan the purchase of farm power equipment. Word from the factory tells us that with all possible manufacturing speed, THE FARMALLS ARE COMING!
