In Times Like These

When a nation has been at war over a period of years, there naturally has to be many changes in every day living. It affects every community, every person and every business, big and small. Therefore, we wish to say—

Thanks To Our Customers

We thank you for your business during the past and the patience you have shown in the delay of delivery of your purchases. We are sorry that conditions have been such that these delays happened, but we know that each one of you has come to realize the labor conditions of times like these make it almost impossible for operations to continue along normal lines.

We know that our service during the past year has not measured up to the standard that we desire to give and have given in past years, but we hope that you will bear in mind this was due to general labor conditions beyond our control. We made every attempt to keep our service at the high level. We closed our mill for a period of three weeks in order to manufacture fertilizers to fill your orders as promptly as possible. Even then, there were delays in some cases. We sincerely hope that the delay in obtaining your purchases has not caused too great a set-back for our customers.

We are proud of you Perquimans County Farmers for the big part you have played in crop production during the war years, and know that your efforts have helped make it possible for America to continue as the best-fed nation in the world.

Again, we want to say thanks for your patronage and patience during the past year, and it is our hope that before another year passes the world will be at peace and we may serve you as in years gone by.

It is time to buy Nitrate of Soda and Land Plaster. We will appreciate your orders for these items.
