

TOWN and FARM in WARTIME

Prepared by OFFICE OF WAR INFORMATION

Civilians At War

The Government needs and asks its citizens in the 181st week of the war against Japan to:

1—Enlist your dog for scout duty with Pacific combat troops. The Army needs 500 large dogs immediately and 1,600 before August. Write the Quartermaster General, Washington, D. C.

2—Plan to can your surplus early vegetables and fruits. Present high blue point values indicate how necessary home-canned foods will be next winter.

3—Insulate your house now to keep it cool during summer, as well as to save fuel which will continue to be scarce next winter.

Reminders

Meats and Fats—Red stamps Y5, Z5 and A2 through D2, June 2 last date for use. Red stamps E2 through J2, June 30 last date for use. Red stamps K2 through P2, July 31 last date for use. Red stamps Q2 through S2, August 31 last date for use.

Processed Foods—Blue stamps H2 through M2, June 2 last date for use. Blue stamps N2 through S2, June 30 last date for use. Blue stamps T2 through X2, July 31 last date for use. Blue stamps Y2, Z2, A1, B1 and C1, August 31 last date for use.

Sugar stamps—No. 35, June 2 last date for use. No. 36, August 31 last date for use.

Fuel Oil—Period 1, 2, 3, 4 and 5 coupons, good for ten gallons per unit, continue valid throughout the country for the rest of the heating year.

Shoes—Airplane stamps Nos. 1, 2 and 3 in Book Three continue valid indefinitely.

Foods In Plentiful Supply During June Listed

Carrots, cabbage, potatoes, tomatoes and onions are expected to be in plentiful supply throughout the greater part of the United States during June, the War Food Administration says. Also readily available will be dry-mix soups, dry edible peas, wheat flour and bread, macaroni, spaghetti, noodles, oatmeal and soya flour, grits and flakes. Apple butter, citrus marmalade, jellies and grape, plum and fig jams continue in good supply. Due to military demands or transportation problems, some temporary local shortages may occur even in these plentiful foods. It is expected that an abundance of Georgia and Carolina peaches will be found in most Eastern and Midwestern markets after mid-June, and that substantial supplies of locally produced fresh vegetables will be available in all of the leading markets.

New Price Regulations On Auto Repair Announced

Specific limits have been set on the hours of labor that automobile repair establishments may charge for in computing prices for 56 common passenger car repair jobs, the Office of Price Administration announced. This action, effective June 14, 1945, is taken to check a practice in some repair shops of charging customers for more hours of labor than were actually required to do the particular repair job. The repair jobs covered range all the way from a minor brake adjustment to the complicated job of installing the crank shaft and bearings. All shops are required to supply sales slips or receipts to customers for any of the 56 listed operations, regardless of whether or not requested by the customer. The slip

or receipt must describe briefly the service, cite its number in the new regulation, the shop's hourly rate, the number of hours charged for, the prices charged for parts and materials, and the total charge. Automobile repair services not among the 56 listed continue to be priced as formerly under the services regulation.

More War Prisoners To Be Used In Agriculture

The War Food Administration announced that it has been assured by the War Department that increased numbers of prisoners of war will be available this year for agricultural work. The WFA Office of Labor reported that a peak total of 85,000 war prisoners will be used in contract work in the period through July as agricultural laborers. Last year approximately 65,000 prisoners of war were available. The men will be assigned through the nine service command areas of the Army. The type of farm work they engage in will be determined by the Directors of State Extension Services. WFA will request an even larger number of POW's for farm work in the peak of the fall harvesting season.

Large Increase of Alarm Clocks Not Likely Soon

Limitation Order L-275, issued April 14, 1944, to control production and distribution of spring-driven and electric alarm clocks, has been revoked to permit manufacturers to in-

crease production whenever the large military contracts they now hold are reduced and materials and skilled labor become available, WPB announced. It said, however, that it foresaw no sharp increase in the number of alarm clocks available to civilians in the immediate future. Production currently is at about one-third of the pre-war rate, estimated at 12,500,000 alarm clocks per year.

BETHEL HDC MEETS

The Bethel Home Demonstration Club met with Mrs. J. J. Phillips for the May meeting. "America the Beautiful" was used as the opening song. In the absence of the president, Mrs. J. J. Phillips presided over the meeting and read from the First Psalm.

After repeating the collect in unison, roll was called and minutes of the last meeting read and approved.

Miss Frances Maness distributed material describing the benefits of hospitalization insurance.

The food preservation leader, Miss Vasti White, read an article on canning food.

Miss Maness gave an interesting and timely talk about food preservation, giving important steps to be taken into consideration.

Mrs. C. E. White won the "States and Capitals" contest and Mrs. C. T. Phillips the word contest conducted by Mrs. J. J. Phillips.

The hostess, Mrs. J. J. Phillips, served cookies and iced drinks to the following: Mrs. C. T. Phillips, Mrs. E. J. Proctor, Mrs. Dan Simpson, Mrs. C. E. White, Mrs. J. T. Harris, Mrs. Vasti White, Mrs. Ennis Phillips and Mrs. J. J. Phillips.

Cotton Classing Is Free Under S-D Act

Free cotton classing by Government classifiers under the terms of the Smith-Doxey Act is available to North Carolina farmers again this year but farmer groups must make application for this service, says Dan F. Holler, Extension cotton marketing specialist at State College.

Fifteen times as much cotton was officially classed last year as in 1939 because the classing card with the grade and staple of the cotton and also its loan value greatly helped growers in marketing their cotton or in obtaining loans, according to Holler.

He suggests that growers contact their county agents and also request their ginners to cooperate in obtaining the free service. The classing card on the cotton will be acceptable on any Government loan and purchase programs.

This year the ginner must submit cut samples from both sides of the bale, box samples not being acceptable. Each ginner must also be bonded. The Extension Service is forwarding applications for the Smith-Doxey classing service and also bond forms direct to the county agent in all counties that desire the service, says Holler.

The farmer group elects a president, a group representative, and an alternate group representative for such business as sampling and mailing samples for the group. The growers adopt a chosen variety of cotton and work for cotton improvement through their organization.

CEILINGS SET FOR SOYBEANS

Proposed ceiling prices for soybeans to be produced this year will be the same as those for 1944, the Office of Price Administration has notified the State Department of Agriculture.

These ceilings are \$2.10 per bushel for yellow or green soybeans and \$1.90 for other classes. Support prices for the 1944 crop and announced supports for the 1945 crop.

No. 1 or No. 2 soybeans with 14 percent moisture or less, are six cents per bushel below these ceilings, according to D. S. Coltrane, Assistant Agriculture Commissioner. Coltrane said that the market prices do not apply to sales of beans for seed or soybeans classed for use in the preparation of products for human consumption.

TAKE CARE OF YOUR CAR

In these days of rationing and tire shortages, let us check your car regularly for better and longer service.

Fractionating towers for producing Toluene at a Sinclair Refinery

WHERE "BLOCK BUSTERS" ARE BORN

TOLUENE puts the knock-out punch in TNT, and it is TNT that gives bombs, "block busters", sea and land mines their destructive power.

Sinclair makes great quantities of Toluene from petroleum in these newly completed fractionating towers at its refinery at Marcus Hook, Penna.

To supply our boys who are doing the fighting, Sinclair makes not only Toluene, but also components for syn-

thetic rubber, 100 octane aviation gasoline and a long list of fuels and specialized lubricants. Altogether, 10 modern Sinclair refineries are turning out products for war-front and home-front use.

SINCLAIR DEALERS do their part by keeping war workers' cars, delivery trucks and other vitally needed vehicles on the job. Let a Sinclair Dealer care for your car, too.
