

## TOWN and FARM in WARTIME

Prepared by OFFICE OF WAR INFORMATION

### Civilians At Peace

The Government needs and asks its citizens in this fourth week of peace to:

1. See your volunteer war jobs through to completion. War bond salesmen, price control and draft board assistants, nurse's aides and other Red Cross workers are still needed.
2. Go back to school to continue the higher education you will need in the post-war world. If you are a high school student who has been working in war industries, you can best assure your future by continuing your education.
3. Consult your local United States Employment Service office as to where your skills can be used to speed reconversion most. USES has the fullest information as to the nature and location of available jobs.

### Reminders

Meats and Fats—Red stamps V2 through Z2, September 30 last date for use. Red stamps A1 through E1, October 31 last date for use. Red stamps F1 through K1, November 30, last date for use. Red stamps L1 through Q1, December 31, last date for use.

Sugar stamp 38, December 31, last date for use.

Shoes—Airplane stamps Nos. 1, 2, 3 and 4 in Book Three continue valid indefinitely.

### Point Values Down

Point values for nearly all meats, all cheeses, creamery butter and margarine are reduced sharply and canned milk is point-free during the rationing period beginning September 2 and ending September 29, Chester Bowles, administrator of OPA, said.

Steaks and roasts will be from two to three points less a pound; hamburger will be a two-points per pound bargain, down from 4; and reductions for cuts of lamb and veal range from one to three points. Pork steaks, chops and roasts are down one to two points; all bacon is down two points, and spareribs are down three points. Nearly all meats that now have a value of two or three points a pound are reduced one point. The new point value for creamery butter is 12 points a pound. Margarine is down from 14 to 12 points a pound. Points for all kinds of rationed cheeses have been cut 50 per cent.

### Vets' Wives and Babies

Following through on a recommendation made by Congress, the Children's Bureau, U. S. Department of Labor, announced that wives and babies of recently discharged service men, under certain conditions, are now eligible to receive medical and hospital care under the Emergency Maternity and Infant Care program. A service man's wife may now apply at any State health department for care for herself and for her baby after her husband's honorable discharge from service, provided that at any time during her pregnancy he was in the fourth, fifth, sixth or seventh pay grades of the services or was an aviation cadet. The same holds true in case the husband or father is promoted, a prisoner of war, missing in action, or dead.

### No Rise In Price

Improved qualities of regular and premium grades of gasoline about to come on the market will cost consumers no more than the lower qualities of those grades produced for civilian use during the war, OPA says. Regular grade gasoline sold since mid-1944 has been generally about 70 octane, but this octane rating will move up to at least the normal level of 72 to 74 octane and may in some cases be in excess of 75 octane, according to advices received by OPA from the industry. Premium grade gasoline is also being improved, and, as a result, OPA has lifted the minimum octane rating qualifying for the premium grade ceilings from 75 octane to 78 octane.

### Use Potatoes Now

Full use immediately of potatoes from "intermediate" states is urged by the Department of Agriculture. The "intermediate" crop is expected to total about 32.7 million bushels and can fill a gap in the nation's food supply. Another important reason why these potatoes should be used now, Agriculture officials say, is that while they are of good quality and many are storable, they do not keep as well as the late varieties. In addition, storage facilities are now fairly limited. Potatoes harvested in hot summer months can only be stored in cool places, and most growers prefer to use precious refrigeration for other foodstuffs. That makes storage of large supplies of potatoes now uneconomical from the growers' viewpoint. The answer to the problem, the Agriculture officials add, is simply: "Use spuds now!"

### Class 2 Slaughter Percentages

A substantial increase in Class 2 (non-federally inspected) slaughter percentages for cattle, calves and hogs for quota periods beginning on or after August 26, 1945, was announced by OPA. The slaughter percentage for cattle is increased from last month's 100 per cent to 125 per cent; the percentage for calves is increased from the former 75 per cent to 100 per cent; and for hogs, from the former 50 per cent to 65 per cent.

The slaughter percentage for sheep and lambs remains unchanged at 110 per cent.

### To Fight Inflation

To enlist consumer aid in preventing food price increases, Price Administrator Chester Bowles announced that "Anti-Inflation Shopping Lists" will be distributed to thousands of housewives from local War Price and Rationing Boards beginning the first week of September. "The OPA is calling upon housewives to help their Government prevent a repetition of the disastrous inflation that followed the first World War."

### ATHLETES FOOT GERM

Kill It For 35c  
IN ONE HOUR, if not pleased your 35c back. Ask any druggist for this powerful fungicide, **TE-O-L**. Its 90% alcohol, makes it **PENETRATE**. The germ can't be killed, unless reached. **TE-O-L** **PENETRATE**, reaches more germs. **APPLY FULL STRENGTH** for itchy, sweaty or smelly feet. Today at Roberson's. adv

Mr. Bowles explains. "The same set of factors that started the inflationary spiral following that war are again here. Consumer goods, including certain foods, are scarce. Everyone wants to buy the things he couldn't get during the war and people have money to spend.

"We are going to do everything in our power to prevent price increases in cost of living items by maintaining price controls as long as they are needed. We can't do the job alone. We want housewives to write on the Anti-Inflation Shopping Lists the prices they have actually paid for various kinds of food over a period of a week. The housewife will send her report to her local board. This will give the board a pretty good picture of food price compliance in its area and point out some of the stores that need investigation."

**SPB Stops Allocation**  
The Surplus Property Board has ceased allocating surplus trucks to farmers and farm cooperatives and will release, for regular disposal, trucks, recently allocated to farmers and not yet sold, it was announced by the Board. Farmers who wish to purchase surplus trucks should contact a local truck dealer as the vehicles will be disposed of through normal channels, with no need for certification.

### Items Available Soon

Rubber toys for Christmas are in prospect as well as thousands of other familiar objects that disappeared during the war years, according to

the Rubber Bureau of WPB, which has lifted all restrictions on products manufactured of reclaimed and scrap rubber and all synthetic rubber except butyl, the special-purpose type used chiefly for tire inner tubes. Natural rubber as well as butyl remains under rigid control.

Other items freed include combs, beach balls, bathing caps and rubber beach bags; bath mats, bottle stoppers, hair curlers and such household items as rubber gloves, rubber fly swatters, soap dishes, dish drains and squeegee window wipers. WPB's action also permits the use of sponge rubber in cushions and mattresses, rubber for unrestricted manufacture of weatherstripping, stair treads, rubber flooring, battery cases and such automobile manufacturing uses as pedal pads and floor mats.

Sport shoes and cleats, hockey pucks, boxers' mouthpieces and a number of other athletic goods items will be made available in greater quantities.

### Enthusiasm

"Why do you call this an enthusiastic stew?"  
"Because the cook put everything he had into it."

## TAKE CARE OF YOUR CAR

In these days of rationing and tire shortages, let us check your car regularly for better and longer service.

Bring your car to us for tire checks, washing and greasing.

Goodyear and U. S. Royal Tires and Tubes

### COMPLETE TIRE SERVICE

# To Fly 1000 BOMBERS

OUR BOYS can fly these four-engined bombers faster, higher and carry more bombs because they use 100-Octane Aviation Gasoline, the most powerful gasoline in the world.

IN NEWLY COMPLETED, modern refinery units Sinclair produces each day enough 100-Octane gasoline to fly 1000 four-engined bombers on a bombing mission. In addition, Sinclair is producing aviation gasoline for training planes and many other petroleum products for war.

SINCLAIR DEALERS, too, are helping to back the boys in the services by keeping vital war workers' cars in operation. 75% of all cars are estimated to be over age and your car needs regular servicing as never before. Let the Sinclair dealer care for your car to keep it running longer.
