Fractionating towers for producing Toluene at a Sinclair Refinery

TOLUENE puts the knock-out punch in TNT, and it is TNT that gives bombs, "block busters", sea and land mines their destructive power.

Sinclair makes great quantities of Toluene from petroleum in these newly completed fractionating towers at its refinery at Marcus Hook, Penna.

To supply our boys who are doing the fighting, Sinclair makes not only Toluene, but also components for syn-

thetic rubber, 100 octane aviation gasoline and a long list of fuels and specialized lubricants. Altogether, 10 modern Sinclair refineries are turning out products for war-front and home-front use.

SINCLAIR DEALERS do their part by keeping war workers' cars, delivery trucks and other vitally needed vehicles on the job. Let a Sinclair Dealer care for your car, too.
