up production, as laborers seek to enforce their demands upon the companies for which they work.

The same industrialists, when they speak about government action that is often taken to restrict their activities in the public interest, speak about regimentation, dictatorship and communism.

Obviously, the Government of the United States was organized in the public interest. It must meet successive problems as they arise and curb abuses that develop, whether through activity of capitalists, laborers or individuals. Usually, the Government is denounced by one side or the other in any dispute in which the Government takes effective action in behalf of the people generally. If it is against labor, it is "capitalistic," and if it acts against industry, it is "communist."

It should be obvious to every American that it is the business of government to apply a "rule of reason" to the problems that arise between labor and capital. The public interest should be supreme. In protecting it, the Government has an equal right to regulate business and labor and there is growing sentiment for positive governmental action.

Cooked A Fine Dinner Then Threw It To Dog

One lady recently stated that she used to throw her own dinner to the dog most of the time. It made her sick just to look at anything to eat. She was swollen with gas, full of bloot, had headaches, felt worn out and was badly constipated. Finally she got INNER-AID and says she now eats everything in sight and digests it perfectly. Bowels are regular and normal. She is enjoying life once more and feels like "some other woman" since taking this New Compound.

INNER-AID contains 12 Great Herbs; they cleanse bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering! Get INNER-AID. Sold by all Drug Stores here in Perquimans County.

A Secondary Road

From all appearances, Sandy Graham's State Highway Commission is making an excellent attempt to convert U. S. Highway 17, through Perquimans County, from a good first class highway into a secondary road. During the past three weeks, employees of the State Highway Commission have been working on the road, spreading rock as a base for a surface-treated roadway on top of the cement highway constructed by Perquimans County some 25 years ago.

No one seems to know why, or understand why, this highway is undergoing its present working over, and no one seems to know why in heaven's name the Highway Commission authorized the work which, to local motorists, deteriorates the road instead of improving it.

This newspaper in the past has called upon the State Highway Commission to improve the road, as was done in other counties in Eastern North Carolina, by widening the highway and fixing the serious joint in the middle of the roadway, which was a road hazard. In our opinion, we should have preferred that the highway remain as it was, a concrete road in fairly good condition, rather than to have a surface treated highway, the staying power of which is yet uncertain, as the main road through our county.

MARY TOWE'S MEET

The Mary Towe Missionary Society of the Methodist Church met Monday night with Mrs. Ralph Wallace at the home of her mother, Mrs. B. G. Koonce.

Mrs. R. S. Monds, Jr., presided at the business meeting. Mrs. J. Alton Hurdle gave the devotional. Mrs. W. C. Archie and Mrs. Walter Edwards reviewed several chapters in the Mission Study Book.

There were 15 members and three visitors present. After the meeting the hostess served refreshments.

HOSTESS TO ROOK CLUB

Mrs. Martin Towe was hostess to her rook club Tuesday night at her home on Church Street. Those playing were Mesdames Jimmy Stallings, Jim Bass, Tom Cox, Arthur White, Edgar Fields, Frank McGoogan and L. S. White. High score prize went to Mrs. L. S. White, second high to Mrs. Stallings and floating prize was awarded Mrs. Cox. A salad course was served by the hostess.

A Challenge

Next Monday morning a group of your neighbors and ours will begin a task that in all probabilities they dislike as much as you would.

That task is calling at your home seeking your contribution to the United War Fund. These solicitor-friends of yours know that the war is over and that everybody believes the time has come to cut down on expenditures. But they also know and realize that some eight or nine million soldiers, several hundred of whom are from Perquimans County, remain in the armed forces, sweating out the time they must serve before coming back home. They know that these boys need and want recreation centers and camp shows, as provided them by the USO. These solicitors know and realize that the 13 United States relief agencies which are helping people in war devastated Allied nations still need funds to carry out their work in these countries.

That is why these friends of yours and ours are volunteering their time and gas and tires to call on you for your contribution.

This final War Fund campaign is a real challenge to the people of this community because during the past three years Perquimans has not failed to answer successfully every appeal made in behalf of humanity. Certainly we can not and will not fail this time. When your friend calls on you for a contribution for the War Fund . . . give as generously as you possibly can.

Time For Precaution

The people of the United States are plagued with many special weeks, proclaimed by various officials for one cause or another. Among the few that deserve real consideration is Fire Prevention Week, designated to emphasize the importance of action to reduce the loss of life and property resulting each year from fires.

Last year, it is estimated, ten thousand lives were lost as the result of fire, most of them because of carelessness in regard to rubbish, handling matches, inflammable liquids and other stuff. The money loss averages about \$440,000,000 a year, which is more property than was destroyed during the first two years of the German aerial attack upon England.

There is little use in quoting figures unless they lead intelligent individuals to take specific action. We hope that this article will persuade readers to do something about the hazards of fire and that they make it today's business to put into effect precautionary measures designed to prevent fire.

"Rule Of Reason"

Some of the most important industrialists of the nation talk about a "rule of reason" when they speak about the possibility of strikes tying

MR. B. C. BERRY

Chief of the Civilian Guards at Harvey Point Naval Air Station For the Past Two Years

Has Now Become Associated With Our Business

He is no new hand at this game, as he has spent 20 years in the retail grocery and furniture business.

Last week he spent several days at Richmond, Petersburg and other manufacturing cities in the interest of our firm, attempting to determine just how fast we could expect to begin receiving new fast selling items, which have been hard to get during the war years.

You can be sure that we will receive these new articles just as soon as they are available, and we ask you to be patient just a little longer and wait for the nationally advertised items that we know you want.
