"Rich Man . . . Poor Man"

When is a man rich? When is he poor? What, really, is wealth? Economists, philosophers, men and women everywhere are trying to find the answer.

Textbooks used to teach us that wealth was simply "surplus capital." Bernard Baruch, sometimes called the "grand old man in Washington," said recently that any man was rich who had one dollar more than he absolutely had to have to meet his needs.

In these days of constantly changing values, in a world beset by constant fear of inflation or deflation, it is hard to see that a modern definition of wealth is in order.

Men and women have become realists about money. They know, for instance, that dollars buy more in times of deflation like the depression years, but jobs, and therefore dollars, are harder to find and deflation does not benefit them.

They also know that in times like the present, with partial inflation, there are plenty of dollars around but they don't buy much. Therefore inflation too is no help.

All this leads up to one thought . . . What the average person wants is not fluctuating dollars, but security; the kind of security that gives him peace of mind. That is the realistic definition of wealth.

Considered in these terms, we, in communities like ours, may consider ourselves reasonably secure. We are secure because our wealth is not in dollars but is in food, forests and other raw materials which the world must have for its existence.

Consider one of our industries, for example—pulp and paper. In 1932—in the year of the great depression—the employment index in the pulp and paper industry was 27.7% higher than the index for all other manufacturing.

Today, while most other industries are looking uncertainly into the future and trying to decide whether inflation is in store for them, the pulp and paper industry, through the U. S. Employment Service, is hiring new workers and mill workers in order to meet the very certain demands for its products which lie ahead. This, too, is the reason that the mills in this area are urgently in need of more top quality pulpwood now.

Car Owners Report: PREWAR PERFORMANCE AND BETTER FROM U. S. ROYALS

Since Pearl Harbor "U. S." scientists have made as much progress in applying synthetic materials to tire manufacture as had been made in the previous three decades with natural rubber.

Result—car owners are sending in reports from every section of the country that they are getting prewar performance and better from their U. S. Royals.

From tire dealers, tire service men and tire engineers, men who have made tires their life work, the evidence piles up—U. S. Royals are out in front in mileage, in safety, in all-round performance.

Follow this plan to get your U. S. Royals:

- Go to your U. S. Royal Dealer today for a thorough tire inspection.
If you are in urgent need of new tires, he will show you how to get them at the earliest possible moment.
If your need is not immediate, he will use his expert knowledge of tire care to keep your car on active duty until new U. S. Royals are available.
The quickest way to get new U. S. Royals is to register your tire needs with your U. S. Royal Dealer now.

"Me... I'm staying in the Army!" THERE ARE PLENTY OF REASONS... AND HERE THEY ARE!

- 1 "First, I keep my present grade. That means a lot.
2 "By reenlisting for 3 years I can pick my own branch of service in the Air, Ground or Service Forces, and can go to any overseas theater I wish.
3 "I get my mustering-out pay, even though I'm reenlisting. Also, I get \$50 a year reenlistment bonus for each year I've been in the Army. My dependents receive family allowances for the full term of my enlistment. And I'll be eligible for GI Bill of Rights benefits when I get out of the Army.
4 "My food, clothes, quarters, medical and dental care are all supplied to me. And I can learn any of 200 skills or trades in the Army schools.
5 "All of us who are reenlisting are going to have from 30 to 90 days' furlough at home with full pay and our travel paid both ways. And we'll have 30 days' furlough every year with pay.
6 "Any time after 30 years I can retire at half pay increasing year by year to three-quarters retirement pay after 30 years of service. And the time I've already served in active military or naval service counts toward my retirement time. Added up—reenlistment seems pretty sound to me!"

Table with columns: PAY PER MONTH—ENLISTED MEN, Starting Base Pay Per Month, MONTHLY RETIREMENT INCOME AFTER: 20 Years' Service, 30 Years' Service. Rows include Master Sergeant, Technical Sergeant, Staff Sergeant, Sergeant, Corporal, Private First Class, Private.
