What Potash can do for you

### 1. SAVE LABOR

Grow your crop on fewer acres. Produce better pasture on which livestock can be turned earlier and kept longer. Prevent lodging of small grain and corn and make other crops easier to harvest.

### 2. INCREASE YIELDS

Thicken and strengthen the stand per acre. Enable crops to better withstand diseases and unfavorable weather. Make grain heavier and fruit larger and juicier.

### 3. IMPROVE QUALITY

Grow root crops that are more marketable in shape and size. Increase the feed value of forage crops. Improve the carrying and keeping quality of fruits and vegetables.

### 4. PREVENT SOIL DEPLETION

Maintain reserves of plant food in the soil. Produce good growth of nitrogen-producing legumes. Balance the crop's use of other plant foods.

See your official agricultural adviser about the use of potash on your soil. Write us for free information and literature on the practical fertilization of crops.

AMERICAN POTASH INSTITUTE

Feel Choked Up With a Cold?

DO THIS  
TO GET PROMPT RELIEF from distress of those nagging colds that cause coughing and make you feel all stuffed up—put a good spoonful of Vicks VapoRub in a bowl of boiling water.  
Then feel relief come as you breathe in the steaming, medicated vapors. These medicated vapors penetrate to the cold-congested upper breathing passages. They soothe irritation, quiet coughing, help clear the head and bring such grand comfort.  
FOR ADDED RELIEF... Oil throat, chest and back at bedtime rub Vicks VapoRub. It works for hours—even while you sleep—to bring relief. Now try this home-tested treatment, tonight.
