Man Had Brick In His Stomach For 10 Years

One man recently stated that for 10 years he felt like he had a brick in his stomach. This feeling was due to the lump of undigested food he always had inside of him. He was weak, worn out, headachy, swollen with gas and terribly constipated. Recently he started taking INNER-AID and says the feeling like a brick in his stomach disappeared the second day. Bowels are regular now, gas and headaches are gone and he feels like a new man. INNER-AID contains 12 Great Herbs; they cleanse bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering! Get INNER-AID. Sold by all drug stores here in Perquimans County. adv

SELF REGULATION

Where It Operates

Self-Regulation is not confined to the cities and towns of North Carolina. It reaches into the highways and byways, demanding strict conformity with law and decency wherever beer is sold. Regulations for above-board selling practices are usually followed to the letter where they are not, steps are taken to effect full compliance.

You help us when you withhold patronage from the few dealers who do not adhere to the high standards of the legalized brewing industry.

LET'S STOP FEEDING INFLATION

You know what happens...

When you continue to spend more than you make and...

Keep on borrowing to make up the difference!

You know too, that a big chunk of every dollar you earn and every dollar you spend goes to pay the cost of government.

That's why it's important for you to take a good look at the way the government spends your dollars.

Government should begin now to live within its means

During the war government necessarily spent huge sums of money. Yet, with the war over, the government plans to spend four times as much in the coming year as it spent in the highest pre-war year.

Most thoughtful people believe that government expenditures are now far greater than they need be.

They believe that government, like a family, should live within its means... that it should not spend more than it takes in... that it should not keep on going deeper into debt.

Yet that is exactly what's happening today. Our government is spending billions more than it takes in. And it continues to borrow to make up the difference.

This is the kind of money-handling that causes inflation.

Economy in government means money in your pocket

If the American people — through Congress — will reduce government spending and take steps to encourage production, inflation will be stopped... and this is the only way it can be stopped.

Write your representatives in Congress today.

Urge them to cut the cost of government, eliminating all waste... all unnecessary services... and postponing all expenditures that can be put off until our war bills have been paid.

Urge them to make the government start living within its means... at a level that you and your neighbors can afford to pay.

You'll see the results soon in the cost of everything that you buy... food, clothing and everything else. And you'll be doing your country a real service.

YOUR DOLLARS... are poured to the National Association of Manufacturers, 15 West 44th Street, New York 20, N. Y., and bring your copy of this informative booklet on government spending — a subject which is still pertinent to you.
