Car Inspection Lane Opened In Hertford

Mechanical inspection of automobiles in the Hertford area was started yesterday at the portable inspectional station lane which was set up here Tuesday on Market Street, opposite Cannon's store.

The portable lane came to Hertford from Edenton, where it has been stationed for the past ten days and went into action on Tuesday when a number of mechanics and motorists watched the crew operate the gadgets used for testing cars and trucks.

Local motorists will have a period of about one week to have cars and trucks tested by the lane before it moves on to another county, according to the crew in charge of the station. The lane will operate from 8 A. M. to 5 P. M. in Hertford and will remain here until next Thursday, April 15.

Owners were advised to be certain to bring registration cards and operator's license when coming through for the inspection.
