Town Board Orders Delinquent Tax Sale

Fiscal matters consumed most of the session held by Hertford Town Board in regular session last Monday night. Following the custom of the past several years the Board ordered that all delinquent 1947 real property taxes be advertised for sale beginning on June 18. The sale will be held on Monday, July 14.

After some discussion, action on the 1948 tax rate for the Town was tabled for the time being. During the discussion opinions were expressed that a possible increase in the town tax rate appeared as a must, especially if the Town continued its program of improvement which has been in force for more than a year. Definite action on a tax increase, however, was not voiced.

A report made by Town Clerk W. G. Newby pointed out that the Town has considerable financial obligations to meet within the next two fiscal months but indications were that income during May and June will be sufficient for the Town to close the fiscal year, on June 30, with all bills paid.

The Board discussed the possibility of installing "off-peak" electric meters on hot water heaters in homes located in the area served by the Town as a means of providing lower costs for hot water through electricity. This system is now used by VEP company and some neighboring cities. No action was taken on the matter but the members of the Board expressed interest in the project and it was decided to continue investigation on the subject.

Mayor V. N. Darden reported to the Board on the repairs being made to the two water tanks owned by the Town and stated that work was about completed; both tanks are now fully repaired and in excellent condition.

THIS WEEK'S HEADLINES

A nation wide rail strike, scheduled to have become effective Tuesday morning, was averted late Monday when the Government seized the railroads and turned them over to the army for operation. A restraining order against the unions was obtained by Government officials and on the court order the railroad workmen continued at their jobs. A hearing on the Court order is scheduled for next week but reports indicate that the differences over which the strike was called will be settled and the trains will continue to roll. Untold sums of money were lost because of the temporary embargo placed upon shipments of perishables by the railroads, when it appeared that the strike would take place. Most selections of the country report conditions back to normal by this date.

Congress has placed its stamp of approval upon a U. S. Air Force of a 70-group size and a Senate committee has approved a selective service measure in efforts to place the nation in a position of safety from possible attack by any nation seeking war. The action by congress in regards to the air force program will provide a greater force than one recommended by Administration officials.

President Truman and State Department officials, this week, stated that the U. S. had not asked for a peace parley with Russia. The announcement was made following a report from Moscow that the U. S. Ambassador had presented a note to Russian officials requesting such a conference to iron out differences between the two nations. The U. S. attitude toward the situation appeared to be one of suspicion toward the Russians in the endeavor to bring about such a conference. It was reported that the U. S. Ambassador had presented a note to Russia stating the United States resented the Russian attitude toward the Marshall Plan aid for Europe.
