**Depends Upon Our Spirit**

The permanent and profitable development of any community, including Hertford, depends upon the spirit of its citizens and the utilization of local resources of money, materials and intelligence.

Contrary to much present-day thought, our development does not depend upon the amount of state money spent in our vicinity or the amount of Federal cash that can be sucked in. These funds may provide a spur but if their acceptance involves surrender of local spirit, the final plight of the municipality may be worse than before the money arrived.

**How To Influence Our Children**

Mothers and fathers of Hertford often wonder whether certain activity of their young sons and daughters is exactly the wise thing for young people.

The anxiety of parents about the conduct of their children is understandable. Naturally, they are sincerely concerned. They want their boys and girls to grow into fine men and women.

There is a way in which parents can influence the conduct of their children. It is not by denouncing their customs or punishing the young people. After all, growing boys and girls require some form of amusement and social life. It is natural for them to congregat together. If parents dislike current activities, it might be a good idea for parents to provide other activity.

Before older people complain of what younger people are doing, it behooves them to bestir themselves and see what they are doing for the boys and the girls.

**Watch Yourself—Physically**

About the only time that the average citizen of Perquimans pays any attention to his, or her, physical well-being is when illness or accident puts them in bed.

This is, unfortunately, the truth in regards to most persons. It is a reflection upon the intelligence that men and women are supposed to have.

The neglect of the body is only comparable to our negligence in regards to mental powers. Every individual has abundant opportunity to improve intellectually, but few of us bother ourselves to do so.

When it comes to the realm of spiritual improvement, the average individual goes into complete eclipse, except in extremely rare and trying moments. Those of us who believe in the possession of a soul know full well that our spiritual growth is possible and most of us believe that it is the great function of human existence.

In spite of this belief and the faith that moves us along life's highway, we carelessly drift along without bothering very much about principles or the lack of them. Few of us attempt to guide our daily lives by the eternal verities that we profess to accept. This is a little bit foolish, when one begins to reflect upon it.

The encouraging thing about individual growth is that it requires no committee meetings, no mass purpose and no assistance from other people. It is one job that the individual can plan and complete upon personal initiative. The only question is, "When will we begin?"

Thinking, not growth, makes manhood. Accustom yourself, therefore, to thinking.  
—Isaac Taylor.

**Stored Grain Insects Subject Of Circular**

Information on control of stored grain insects, which cause heavy losses on North Carolina farms each year, is given in a new publication just issued by the State College Extension Service. It is Extension Circular No. 325, "Control Stored Grain Insects."

The circular, prepared by James T. Conner, Jr., in charge of extension entomology, is considered particularly timely because of the bumper corn crop which farmers in the State are harvesting this fall.

Several species of insects are responsible for damage to stored grain, Mr. Conner says. Fortunately, he adds, the same treatment, if properly employed, will control all of them.

The entomologist recommends first that old grain in the crib be cleaned up by means of fumigation, or that it be removed from bins where the new crop will be stored. Then, as soon as the new grain is put into this clean storage, it should be fumigated.

A number of chemicals may be used. From the standpoint of the farmer, says Mr. Conner, the most practical fumigant is either a mixture of three parts ethylene dichloride and one part carbon disulfide and carbon tetrachloride, or a mixture of one part carbon disulfide and four parts carbon tetrachloride.

The dosage will vary according to temperature and tightness of the bin. Further details are given in the new circular, copies of which may be obtained free from the local county agent or by writing to the Agricultural Editor, State College Station, Raleigh.

Our nature is inseparable from desires, and the very word desire—implies that our present felicity is not complete.  
—Thomas Hobbes.

**PREPARE TODAY! SUCCESS TOMORROW!**

It is well known that every person has a certain degree of ambition and desire to get ahead in life. A young man seeking employment would hardly consider working at any place where his chances for advancement were poor. That's why more and more ambitious young men are taking advantage of the opportunities offered by the new Army and Air Force. These are good jobs, in interesting, exciting work. Jobs in ordnance, signal, medical engineers, radio, radar, photography, weather. These are just a few of the jobs available for qualified men. Steady employment for as long as you want it and good pay is only the beginning. Food, clothing, shoes, shelter cost you nothing. Retire at half pay in 20 years, at no cost to you. Call today and get the facts at the U. S. Army and U. S. Air Force Recruiting Station, Kramer Building, Elizabeth City. 1tc

**That Nagging Backache**

May Warn of Disordered Kidney Action

Modern life with its busy and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—brings heavy attacks on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, big pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of double approval. Are recommended by doctors, health authorities, and your neighbor!

**DOAN'S PILLS**
