PMA Now Accepting Limestone Orders

W. E. White, secretary of PMA, states that any producer planning to

use AAA limestone by the early spring should place his order at the PMA office at once. Thirty-two orders for AAA limestone which totals 606 tons, have been placed under the 1949 program. Mr. White reports the 606 tons of lime have been delivered. To insure early delivery it is advisable for farmers to place their order for lime immediately. The credit rate for AAA limestone is \$2.75 per ton.

Plans are being made to handle bag limestone through the purchase order plan. Any farmer interested in purchasing bag limestone should call at the PMA office. Mr. White states that they will be able to issue purchase orders for bag limestone any time after January 13.
