

First Practice For Tidewater Players Called For March 19

The Hertford Warriors of the Tidewater Baseball League will hold their first practice at 3 o'clock Saturday afternoon, March 19, on the local diamond in Hertford.

Kerry Lane, manager of the local club, stated that any local boys interested in a tryout will be welcome at this practice. "We'd like to see them out," he said. Several of the local boys in Perquimans County have already been contacted and a number of them have expressed their desire to sign with the local club this season. Among those expected to try out for the team are Chester Winslow, Carl Winslow, Billy Winslow, Earl Rogerson, Howard Pitt, Edward Lane, Jack Symons, "Buck" Wilson, John Ward, Jimmy Ward, Bill Pegrom. Lane named several boys from Edenton and Chowan County whom he hopes to sign up to add strength to the local club. Those contacted are Fred Hoskins, Luther Keeter, Ward Hoskins, Fred Keeter of Edenton and Earl Goodwin, Cal Byrum and Joe Forehand from Chowan County.

"Even though we are the only new club in the loop," said Lane, "I think we will be as good as any ball club in the league by the middle of the season."

In an agreement passed by the Tidewater League directors, only two games will be played a week, which will be on Saturday and Sunday afternoons with one being played at home and one away. It was also ruled that any player carried on the Albemarle League roster during the last two weeks of the 1948 season would not be eligible to play in the Tidewater League this season, which

means that the league will consist strictly of local players this season. Lane believes that a number of the boys on this club will be able to move up to the Hertford Indians of the Albemarle League by the time their season gets under way. He adds that the club has received splendid support from the local baseball fans of Perquimans County who are eager to see the local talent in action on the diamond over the week-ends. He also has high praise for the local merchants of Hertford, who sponsored new uniforms for the boys.

who want electric service. Mr. Bonner closed his speech by giving the local membership a brief outline of the activities of the co-op. He stated, "Yours is a comparatively new cooperative, its first lines went into service late in 1946. It has arranged to borrow \$1,210,000 from REA to build 670 miles of lines, to serve 2,714 farms and other rural establishments. By the end of January, 1949, REA had actually advanced \$827,942 of the loan funds committed, and the co-op had 391 miles of line energized and 1,344 members receiving service, of which 1,244 were farms. The co-op has met all of the debt service requirements. It took in about \$50,000 during 1948, which was considerable more than the out-of-pocket expenses of the operation and for purchased power."

He pointed out that these facts prove the practicability of REA to be successful and paid tribute to former Governor Ehringhaus and Dudley Bagley for the part they played in helping REA to get established in North Carolina.

Couple Celebrates Golden Anniversary
