Health and Beauty

By Dr. Sophia Brunson

You Can't Build A Better World And Ignore God

The nations and individuals that neglect and defy God shall perish. God's word says so and history has proved its truth.

Look at Babylon, the proudest and most magnificent empire on the face of the earth. God said through Isaiah, "I will sweep it with the besom of destruction."

God also said, "And Babylon, the glory of the kingdoms, the beauty of the Chaldees' excellency, shall be as when God overthrew Sodom and Gomorrah. It shall never be inhabited neither shall it be dwelt in for generation to generation. Neither shall the Arabian pitch his tent there." This has been literally fulfilled.

Before your very eyes have you seen the swift retribution that has fallen on Germany and Japan. They exalted themselves, and warred against God and His Holy Book. They descended below the lowest and the bloodiest of wild beasts. They became arrogant and as cruel as demons from the lowest reaches of hell.

Hitler and all his cruel merciless brood! Where are they today? Some of them exalted themselves above Deity and a suicides in dishonored graves.

Look at Himmler, the most feared perhaps of all the scorpion brood, whose shadows fell across Germany. He had the power of life and death over the cringing people, and sent thousands to the torture chambers, or had them beaten or starved to death. He was worth millions in money and treasure. It could not save this God-flouting wretch. He took poison.

For three days his body lay on the floor of a Nuremberg villa. Three soldiers dumped it into a one-ton truck alongside three spades. He was clad only in a British army shirt and army blanket which he had draped around himself, when his clothes were taken away. He was thrown into a hole in the woods. One soldier said, "Worm go to worms," as the dirt was shoveled upon him. No mound was left to identify the grave.

So perished the great Himmler, who exalted himself, as did Lucifer, above the stars of God. God took a hand, and he came swiftly to the end. He died like the coward he was, covered with infamy and shame.

Wakc up, America, God has wonderfully blessed you. He sent your youth to destroy the place where the Germans were feverishly working on the atom to manufacture bombs which would destroy Britain, America and every other country that opposed them. He has preserved America. This has not been done in order that we might spend our days in money-getting and worldly amusement.

Have you been scared into praying while in dire danger, only to forget your Maker as soon as you fancy that the danger is past? The answers to prayer that have so often delivered men from death, even when adrift on the ocean in frail rafts, have been granted by our God who has dealt so graciously with us.

Let us in deep humility look up to Him in gratitude and thankfulness for all His mercies. Let us go forward to conquer now for righteousness, truth and sanity in a redeemed America.

How Employers Can Help Their Employees

Many potential beneficiaries under the Old-Age and Survivors Insurance program lose benefits because they fail to file for them promptly. This is according to an announcement by J. A. Morrison, manager of the Norfolk Social Security Administration Field Office.

Mr. Morrison stated that possibly the reason potential beneficiaries failed to claim benefits due them was because they did not realize their rights. The Social Security Administration has no way of knowing when a worker retires either temporarily or permanently, he added.

The employer has a valid interest in seeing to it that his employees receive the benefits for which they have shared in paying. To inform each of his employees of retirement age that they can claim benefits for any months earn less than \$15.00, would seem to be an integral part of good industrial relations.

Retired workers are not the only persons losing benefits. Survivors of deceased workers have also lost benefits. Here again the employer may help prevent such loss by letting the survivor of a deceased employee, regardless of the latter's age, know that he, or she, should contact your local social security field office to file a claim immediately, or within three months at most.

Sunday School Lesson

(Continued From Page Nine)

crime have been clearly shown allied with drink in practically every social analysis ever made of the liquor problem. Degeneracy of little children born with the curse of impaired bodies and minds because their father thought of them not at all.

Or, we would make another challenge. Let those who shout and fight for liquor produce a single man or woman in the world who, after living a life of sobriety, would be willing as the shades of night gathered about the head to express a single regret that liquor had been refused. But,

how many thousands of men and women, diseased, morally wrecked, financially impoverished, have poured out the anguish of their heart at lives mispent and wasted because alcohol was predominant? Surely, the weight of human experience is entitled to great authority.
