**Use Good Seed**

The farmers of Perquimans County are about to begin their new year. They will soon inaugurate the crops upon which they will depend for a living. Into the uncertain lap of the weather and the market they consign their fortunes, and even the lives of the families for which they labor.

It is not a very inviting prospect for farmers. What the future holds is hard to determine. What the farmer may expect is uncertain, in yield as well as in prices. The uncertain, unknown factors are risks that are great enough. No unnecessary liability should be carelessly or wantonly added.

Too often a farmer plants his crop without considering the importance of the seed. Heavy losses result every year, in every crop, from poor selection of seed. Good seed is important. It is the good beginning that enables one farmer to outdo his neighbor. Good seed will mean good stands, healthy plants and ability to live and grow, and to withstand temporary setbacks.

Let every farmer who reads this article determine to plant only good seed this spring. This is one expenditure that will pay.

**Depends Upon People**

World peace, we are told, cannot be based upon the sovereign equality of nations but must rest upon a worldwide legal order, standing above nations, and possessing the power to create law and enforce it upon individuals.

We think this would be an ideal set-up, provided the super-government would learn what has not been appreciated in the United States, that the rights of individuals must be snuffed out in an effort to produce a uniform pattern of conduct.

At the present time, however, we see no prospect that the nations, including the United States, are ready to abrogate their sovereignty. The trend of popular opinion, it seems, is the other way. There is danger of a new outburst of nationalism, with the

**MANY NEVER SUSPECT CAUSE OF BACKACHES**

As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slows down kidney function. This may lead many folks to complain of nagging backaches, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, dampness or dietary indiscretions.

If your discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 50 years. While these symptoms may often otherwise occur, it's amazing how many times Doan's give happy relief—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

**DOAN'S PILLS**

people of each country judging every proposal by what they get out of it. We do not know when the ideal, super-state will arrive. Some day it will come into being but it will not be possible until the majority of the people of the world grow wisely tolerant of dissidents. The peace of the world depends more upon the willingness of peoples to live and let live than upon the type of governments that exist.

**Appreciate Men Who Are Successful**

The people who live in Hertford should not have to be taught the valuable lesson of co-operation. It plays a vital part in the successful growth of any city, although, under present economic organization, its power is not as plain as in the olden days when every citizen turned out to put his shoulder to some public enterprise.

One of the most valuable assets that a town can have is successful men. Get that, and remember it. It is high time that the worth of successful business men be appreciated. From them if anywhere, will come the impulses that lead Hertford to bigger and better achievements.

**Advertising Builds Success**

Advertising is perhaps the most wonderful development of the modern commercial age. It is maker and breaker of business, big or little. It is the one factor of successful sales that is most apt to be overlooked by the merchants of small towns and cities.

Advertising is not the exclusive weapon of big business; it is the power that will make little concerns grow into larger success. It is a science that requires study and, be it said, character. It cannot succeed if it is untrue. It must build upon faith and honesty.

The Perquimans Weekly is prepared to assist local business men in their advertising problems. It may say, with due modesty, that its staff knows something about advertising, and that their experience is available to all who wish to use it.
