

LETTERS TO THE EDITOR

In connection with the Red Cross Blood Program being carried out in this county, we wish to urge the citizens of this county to give whole-hearted support to this fine program. We wish to assure them that at the Red Cross Blood Center, they will be given a careful examination as to blood pressure, red blood count and general fitness to give blood. All necessary precautions are taken so that one may feel sure that if he is passed as a donor there will be no bad after-effects. You will be able to return to your work and will not feel weak or ill. An accepted donor may make repeated gifts of blood at each visit of the Red Cross unit without any fear of physical harm.
