

Work On Scenic Toll Road In Nags Head Area To Begin Soon

Representing an outlay of approximately \$2,500,000, work on the Virginia Beach-Nags Head Oceanside scenic toll road will begin within the next few weeks, it was stated in Virginia Beach this week by Sidney Banks, president of the Virginia Turnpike Authority, which with the Carolina Virginia Coastal Road Corporation will build the highway. It will be America's first real ocean highway.

Route of the road will be along the ocean's edge through a maritime wilderness that extends for 57 miles between the two famous resorts. The only villages it will pass will be Corolly, population 22, and Duck which has a resident population of less than 50.

Four contracting firms, three from Virginia and one from South Carolina have been assured of sharing in the project's construction. When completed the road will be one of America's most unusual. Toll charges will not exceed \$1 per automobile.

Dental Work In District Completed

(Continued from Page One)

Number children who had teeth extracted	444
Number children whose teeth were cleaned	1004
Number children given sodium fluoride treatments	189
Total number operations	3577
Number 6 year molars filled	468
Number 6 year molars extracted	21
Number repeaters worked for	294
Number of pre-school children worked for	16
Number of lectures on dental care	47
Attendance at lectures	1523

A most interesting point observed from the above figures is that 468 six year molars (permanent teeth) were filled by Dr. Koonce and only 16 had to be removed. After a few more weeks, nearly all of these 468 teeth would be lost—a good example of prevention.

Health Department officials offer the following advice:

Let's learn which teeth are permanent.

Let's watch for decay (cavities) in these permanent teeth.

When they first start to decay, let's see our dentist at once.

Let's see our dentist at least every six months.

Couple Celebrates 25th Anniversary

Mr. and Mrs. Lawrence B. Perry celebrated their twenty-fifth wedding anniversary at their home Friday evening, August 11.

The lower floor of the home was beautifully decorated with white summer cut flowers. The dining table was spread with a lace cloth with a four-tier cake, topped with a miniature bride and groom. The room was lighted with tall candles in silver holders which accented the color scheme of silver, green and white.

Mr. and Mrs. W. O. Hunter greeted the guests and presented them to

the receiving line, who were Mr. and Mrs. Perry, Mr. and Mrs. W. E. Proctor and Mr. and Mrs. Bristow Perry.

Guests were registered by Mrs. Carlton Asbell. Mrs. P. E. Lane then directed them to the dining room where the cake was cut by Mrs. Preston Rogerson and served by Mrs. M. B. Dail and Mrs. Louis Monds. Mrs. B. P. Monds presided at the punch bowl, assisted by Mrs. Percy Rogerson.

The guests were invited to the gift room by Mrs. Wilbur Jordan and Miss Marjorie Perry. Goodbyes were said Mr. and Mrs. Roy Chappell.

There were approximately sixty guests calling during the evening.

Reservists Advised On Transportation

Army and Air Force reservists called to active duty should report to the nearest USA and USAF recruiting station of their desire government transportation to their reporting station, Major Robert C. Anderson, North Carolina Military District deputy for

recruiting, announced today. "Authority for transportation requests must come from recruiting main stations and therefore it is imperative that recruiting station commanders have the reservist's request early enough to forward it for processing," Major Anderson explained. "Reservist's desiring government paid transportation must surrender notice of call to active duty to recruiting station commanders as a basis of authority for travel orders. Notices of call will be returned to reservists prior to their departure," he added. USA and USAF recruiting stations in this area are located in Elizabeth City, New Bern, and Rocky Mount.

towards filling the needs of the nation's youth and plans for following up on existing needs of children and youth. The reports on programs already underway on behalf of these children, and on the areas of need as yet unsupplied, will be formulated in large part at the grassroots level, in just such meetings as that set for Perquimans County. The county reports will then be collated into the state report to the Mid-century Conference.

with a JOHN DEERE No. 12-A Combine

In any combineable crop . . . in any field condition, you'll bin more grain from every acre when you use a thrifty, grain-saving John Deere No. 12-A Combine.

The remarkable capacity and grain-saving performance of the No. 12-A is due to its straight-through, full-width construction. Down or standing . . . light or heavy crops flow evenly from the cutter bar through the full-width threshing, separating, and extra-large cleaning units.

Light in weight and maneuverable, the sturdy No. 12-A works successfully in wet fields where heavier machines would bog down. It's an easy-operating combine, with simple adjustments for your particular crop or conditions. See us for complete information about the field-proved, time-tested John Deere No. 12-A Combine.
