

Superior Court Term Adjourned Last Friday P. M.

The October term of Perquimans Superior Court was adjourned here last Friday afternoon at 2 o'clock, following a hearing given Redman Perry, charged with driving drunk. The jury, after deliberating the case for almost an hour, returned a verdict of not guilty.

The trials of Lester Keel, charged with driving drunk, A. L. Lanston, charged with driving drunk, and Trannis Spellman, charged with manslaughter, were continued until the next term of Superior Court.

Troy Elliott, who was found guilty on a charge of transporting non-tax paid liquor, was sentenced to the roads for nine months.

Late Wednesday evening the Grand Jury made its report to the court, and stated that it had found the county offices well kept and in good condition, with the officers being efficient. The Grand Jury recommended that the attic of the Court House be cleaned up, as it was a fire hazard in its present condition.

The report stated the Grand Jury had inspected the schools and school buses and commended the school mechanics on the splendid job of keeping the buses in good condition. As to school buildings, the jury reported some needed repairs.

Investigation of the clerk's office, the report stated, revealed a large amount of work in this office and after its investigation the Grand Jury recommended the repeal of Senate Bill 395, which placed the office of the clerk of recorder's court on a salary basis, and requested this office be paid on a fee basis as was the case prior to the passage of the bill in the Legislature.

The Grand Jury also recommended that compensation of jurors be increased to \$5 per day and mileage to and from their homes.

CHEVROLET TRUCKS

with Chevrolet's Hypoid Rear Axle

Chevrolet trucks are engineered to "take it," in every way. Chevrolet's heavy-duty hypoid rear axles offer maximum strength . . . with single-unit housings formed into tubular steel beams, and splined axle-to-hub connections that deliver power more evenly. Gears last longer, too . . . pinion gear is ball-bearing supported at each end, with adjustable thrust pad to prevent distortion on extra heavy pulls. Add these advantages to powerful Valve-in-Head engines, Synchro-Mesh transmissions, and channel-type frames. Then you'll know why Chevrolet is the most popular truck in America.
