Check Wiring System Advises County Agent

Even the best wiring system needs a little attention now and then, Perquimans County farmers were reminded this week by I. C. Yagel, county farm agent for the State College Extension Service.

Mr. Yagel said the ordinary 115-volt lighting circuit can be as deadly as high voltage lines. "There's too much power packed into electric wires to gamble with them," he commented. The National Safety Council gives hints for keeping wiring systems in good condition. Outside, you should check frequently for broken insulators, frayed insulation, and loose or sagging wires that may contact trees or other obstructions. Inside buildings, watch for defective outlets or switches, loose connections at junctions, damaged insulation, and worn fixtures. Appliance cords need frequent attention. When defective, they should be discarded or repaired immediately.

Even for minor repairs, be sure the current has been turned off before beginning work. Since water is a good conductor of electricity, be especially cautious in damp places.

When purchasing electrical appliances, look for the "UL" label signifying that the equipment has been tested

MANY-NEVER SUSPECT CAUSE OF BACKACHES

As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slows down kidney function. This may lead many folks to complain of nagging backache, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, dampness or dietary indiscretions.

If your discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 50 years. While these symptoms may often otherwise occur, it's amazing how many times Doan's give happy relief—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

Double Tragedy
The motorist, who had just run over a hen, was eager to pay the farmer for his loss. "I suppose 50 cents will square things," he said. The farmer was about to take the money when he paused. "No, I don't think that's enough," he said. "You'd better make it a dollar. I have a rooster that thought a mighty lot of that hen, and the shock may kill him, too."
