

U-Z Motorists Now Renewing Licenses

Now is the time for motorists whose last names begin with U, V, W, G, Y or Z to visit their nearest driver's license examiners to obtain renewals of their licenses to drive, the Department of Motor Vehicles points out.

Lines at examining stations are short and applicants have very little trouble in being waited on. Deadline for the group is June 30.

The U-Z category will complete the first round of re-examining which began four years ago. Thereafter rush periods for driver's license examiners will be a thing of the past because all motorists will be required to renew their licenses within the 30-day period prior to their birthdays, four years after issuance.

A few motorists, mostly those with surnames beginning with A or B and whose birthdays fall between January 1 and July 1, already are having to obtain second renewals. However, the next renewal date will fall in exactly four years.

Examinations for U-Z motorists will include the usual four phases—eyes, rules of the road, traffic signs and road test.

Presentation of old driver's licenses by persons seeking second renewal will be accepted as evidence that the applicant has passed the road test.

SOIL CONSERVATION NOTES

Clarence S. Chappell is cutting new tap ditches on most of his farm with a dragline. These ditches were staked out parallel to each other thereby eliminating a lot of short rows that existed under his old drainage system. His new ditches are larger and deeper and will provide better drainage for his land.

A. T. Lane is having a ditch on his farm cut with a dragline. This ditch will furnish better drainage for his fields and also intercept some woods water that has been coming on his fields.

J. J. Skinner and Lawrence Lowe

are planning on having a lead ditch cut out.

The Albemarle Soil Conservation District has received petitions for assistance on three group drainage projects in Perquimans County this month.
