**Vet Cash Benefits Exempt From Taxes**

Certain cash benefits paid to veterans, their dependents, or survivors, during 1950 are exempt from Federal taxation, the North Carolina Veterans Commission points out.

With the filing date for income tax returns approaching, the Commission is receiving numerous inquiries con-

cerning the status of benefits for taxing purposes.

Many of the benefits paid by the Federal government are exempt by statute while others may be exempt only on certain conditions.

Those veterans, or dependents, who are in doubt should contact the District Service Officers of the North Carolina Veterans Service Officer-Carolina Veterans Commission, or for further information.

**Veteran Training Is Aiding Farmers**

A far-reaching shift toward agricultural diversification and farm mechanization is noted in the annual achievement report of the 25,000 North Carolinians who are enrolled in the Veterans Farmer Training Program.

In announcing a summary of the report, A. L. Teachey, State Supervisor of Vocational Agriculture, who directs this program, said that progress has been made in many areas of agricultural development, including land improvement, home food production and preservation and homestead beautification and alterations.

Among land improvement projects completed by the veterans registered in the program are 15,317,543 feet of terraces constructed, 153,734 acres of contour cultivation, 39,326 acres of strip-cropped; 21,529 acres of meadow strips established, 6,321 acres of land reforested, and 21,060 acres of woodlands thinned.

Also included are 88,386 acres of woodland protected from fire and 35,719 acres where the selective cutting of timber has been practiced.

The field of crop production showed significant gains, also. These included 146,403 acres of soils tested for acidity and fertility, 105,206 acres of soils timed this past year, 183,898 acres of adapted hybrid corn grown, and a total of 6,639,326 pounds of adapted certified seeds used.

The report also showed that 3,141,352 square yards of tobacco beds have been treated to control diseases, that 3,037,485 square yards of tobacco beds have been treated to kill weeds, that 166,742 acres of cover crops have been "turned under," that 141,221 acres of legumes have been seeded, and that 64,974 acres of permanent pastures have been seeded by over 10,000 participating farmers.

Extensive gains, Teachey said, were shown in poultry production and expansion. Among these are 1,023,431 purebred pullets raised, 4,401,006 certified baby chicks brooded, 13,501 poultry houses renovated, 834,784 laying hens fed on balanced rations, 28,787 flocks culled, 15,855 poultry houses disinfected and whitewashed, and 10,988 acres of green feed provided.

Swine growing was a popular feature, which included 10,524 purebred breeding hogs acquired, 65,164 feeders raised for home use, 15,712 sows bred to purebred boars, 5,165 farrowing houses constructed, 49,323 pigs put on self feeders, 7,443 houses cleaned for farrowing, and 50,898 hogs vaccinated against cholera.

Noticeable increases, Teachey stated, also were reported in dairy and beef cattle enterprises by those persons enrolled in the Institutional On-the-Farm Training Program, as the

project is officially known.

Dairy advancements show 2,431 purebred milk cows acquired, 14,341 high "grade" milk cows acquired, 5,209 purebred calves raised, 3,588 barns renovated, 15,201 cows bred to purebred bulls, and 602 farmers changed to the production of grade "A" milk.

Among the beef cattle gains were 1,552 purebred breeding cattle acquired, 5,568 high "grade" cattle acquired, 3,553 cows bred to purebred bulls and 10,394 calves fed for market and home use.

**MARY TOWE'S TO MEET**

**DID YOU KNOW?**

One Example Is Worth A Thousand Arguments

That is why we affiliated our store with THE SERVICE FOOD STORES. This organization has a central buying office in Norfolk and is operated exclusively by INDEPENDENT GROCERS all over Virginia and the Carolinas.

**WHY DID WE DO THIS?**

1. To enable us to buy at quantity prices which are in many instances cheaper than most of our competitors. This makes it possible for you to buy here at prices as low and lower than at any other store.
2. We are always alert for specials, which we frequently obtain from our organization set-up. You benefit by this and not us, except for the fact that you might buy something else.
3. We instruct our personnel to be courteous and fair with our trade. We are here to stay and we realize that it all depends on YOU.

This is our answer to the question above. You take no chances on prices when you trade here . . . No matter whether it is groceries, hardware or dry goods. Our prices are always in line with any competition.

**Let Us Prove This Example In Fact**

You Can Get Anything Here — Give Us a Try!
