In Perquimans, Gates, Chowan and Pasquotank Counties, per year, \$1.50. Outside Perquimans, Gates, Chowan and Pasquotank Counties, per year, \$2.00.

FRIDAY, MARCH 16, 1951

The hot sun makes men mad in the daytime and the romantic moon makes them foolish at night.

When the average American shouts for unity, he means that other people should fall in line with his views.

Nearly every human being likes to think about the day when he will have plenty of money and be able to help all worthy causes.

Human nature, through the ages, has responded very slowly to what reformers call the uplift and little progress is made by applying the pressure too fast.

A Valuable Possession

The people of Orangeburg have different religious beliefs and worship according to their conscience without interference from the government and its officials.

Freedom of religious worship is one of the rights guaranteed by our form of government. Those who enjoy the blessing that it affords should be scrupulous in respecting the beliefs of those with whom they do not agree.

Religion in the United States, however, suffers no threat of dictatorship. Its worst enemy, so far as we can see, is the failure of individuals to put into practice the principles of the religion that they profess.

Frankly, the editor of this newspaper never worries about the religion that other people prefer. We trust that no one worries about our beliefs.

Instead of disputing about non-essentials, we might follow the example of the great teacher who went about doing good. Life presents many pitfalls into which human beings plunge and it is up to all of us to avoid them as best we can.

The good Samaritan, in this year 1951, will find much to do.

Inflation Can Hurt Everybody

The people of the United States are beginning to wonder whether the expenditures necessitated by the defense program will result in inflationary prices and thus carry us to another pinnacle from which we will inevitably descend into another depression.

With the increased tempo of defense spending, the people of the United States will have more money to spend. It is also certain that, as industrial plants turn from normal production into the production of defense materials, the shortage of goods may become pronounced.

Given more money and fewer goods, it is certain that prices will go up as prospective buyers bid against each other for decreasing supplies.

As we understand it, and we admit that we do not know too much about it, this can be done in several ways. One is to set a price upon goods and commodities. Another is to provide heavy taxation in order to drain off excess purchasing power.

We hope the people of the United States will be smart enough to encourage the Government to take what

ever steps are necessary to prevent a repetition of the inflationary orgy which developed in the United States after the first World War.

Highway Accidents Soar To \$64,000,000 In State Last Year

Highway accidents cost North Carolinians approximately \$64,000,000 last year, the Department of Motor Vehicles has reported as it released its 1950 accident summary.

The figure is based on a National Safety Council formula for working out economic loss as the result of highway accidents.

The State chalked up its sixth highest fatality figure of the past 20 years during the year and set new records for accidents and injuries.

A total of 989 persons were reported killed in traffic accidents during the year, an increase of 17 per cent over 1949 when 843 persons were killed. Only the years 1935 with 1,095 deaths, 1936 with 1,026, 1937 with 1,123, 1941 with 1,286 and 1946 with 1,028 were higher than 1950.

Injuries mounted to 12,352 with 4,484 listed as severe and 7,868 as slight. The previous high was 1949 when 9,721 persons were reported injured, with 3,595 severely hurt and 6,126 slightly hurt. The 1950 figure represented a 27 per cent increase over 1949.

Accidents in 1950 reached the all-time high of 28,251, of which 837 were fatal, 7,657 involved injuries and 19,757 property damage. The previous record, set in 1949, was 21,202 accidents with 723 fatal, 6,060 involving injuries and 14,419 property damage.

The Low-Down

Educator—"Children need and should have encouragement. A slap on the back goes a long way with a child."

Parent—"Yes, and if the slap on the back is low enough and hard enough, that helps, too."

Kidney Slow-Down May Bring Restless Nights

When kidney function slows down, many folks complain of aching backaches, headaches, dizziness and loss of pep and energy. Don't suffer restless nights with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold, dampness or wrong diet may cause getting up nights or frequent passages. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often other remedies fail, it's amazing how many times Doan's happy relief from these discomforts—help the 16 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!
