Town Board Acts To Curb Traffic Violations Here

Traffic violation within the Town of Hertford was the main topic on the agenda at a meeting of the Hertford Town Board, held last Monday night.

In a letter written to the Mayor and Town Board, the Hertford Junior Chamber of Commerce voiced a complaint, charging numerous violations of the speeding and reckless driving laws, and requested action be taken by the authorities to curb these violations.

The Board acted upon the request by ordering Town Police to patrol the streets of Hertford in search of violators, and also to make a careful check of conditions in the downtown area.

On motions ordered the Mayor was authorized to install, on trial basis traffic lights at the corners of Church and Dobb streets and Dobb and Hyde Park streets.

Orders were also issued for the installation of a number of 20 mile per hour signs, to be installed at intersections throughout the town. Under State law, the speed limit of 20 miles per hour can be designated in town at intersections where deemed necessary by the governing body.

In the suggestion of the Junior Chamber of Commerce, the Board invited a committee of the Jaycees to attend the next meeting of the Board and further discuss the matter of traffic violations within Hertford.

The Board adopted a resolution expressing its thanks and commending Senators J. Emmett Winslow and William Copeland for their aid and assistance in the passage of the Powell Bill by the Legislature. The bill calls for funds to be paid the Town of Hertford for the upkeep of streets within the town.

HERTFORD ROTARIANS TOLD LITTLE HOPE IS SEEN FOR WORKING PACT WITH REDS

Native of Hungary Is Guest Speaker at Club Meeting

"I see no hope of a working agreement with Russia," Dr. Udvarnoki, pastor of the Gatesville Baptist Church, and former president of the Baptist Theological Seminary in Budapest, Hungary, told members of the Hertford Rotary Club at their weekly meeting held Tuesday night at the Hotel Hertford.

Dr. Udvarnoki, a native of Hungary, who studied in the U. S. during his youth, and returned to America in 1947, spoke to the Rotarians on life behind the Iron Curtain. He stated there is really two iron curtains, one separating the Russian satellite nations from the Western World and the second separating the satellites from the Russians themselves.

Speaking of the arrests of numerous church officials by the Russians, Dr. Udvarnoki said, this was merely a planned program by the Russians to shut off gifts and assistance from America, thus lending a hand to the Communist propaganda that only Russia was interested in the welfare of the people of the world. With the arrests of the churchmen the word got around that others receiving assistance from America would be arrested and tried for treason. Thus America was asked to stop sending money and gifts and the Russians plan became successful.

Another step in the Russian propaganda scheme, Dr. Udvarnoki said was the constant theme the Communists used on the radio and press that only Russia was a free and cultured nation, interested in advancing social conditions for the people.

"Communists use hatred as the core of their propaganda," Dr. Udvarnoki continued, "attempting to instill into the people a violent dislike of everything pertaining to the way of life in the western world, and consider individuals only as an easily replaced part of a vast machine which is the State."

A unified front of all the people of the free world is needed if Communism is to be stopped and freedom is to continue, the speaker stated.

Announcement was made from Washington early Wednesday morning that General Douglas MacArthur had been relieved as Supreme Commander of the United Nations troops in Korea. The report said that General Ridgeway, sent to Korea as Commander of the U. S. troops following the death of General Walker, will succeed General MacArthur as Supreme Commander. The firing of General MacArthur is expected to set off prolonged debates in Washington. Reaction to the report throughout the country was mixed.

Meanwhile on the war front in Korea, United Nations troops were inching ahead in the battle against Communists. The heaviest fighting was reported around Hwachon Reservoir, where Communists were putting up strong resistance to keep the UN soldiers from capturing the reservoir. Early in the week the Communists had opened the flood gates of the reservoir, flooding the immediate area with high water, but UN troops gained high ground before the water caused loss or damage.
