NOTICE OF SALE
Under and by virtue of the power of sale contained in that certain deed of trust dated March 28, 1949, by Joshua Simpson and wife Airmye Simpson, to the undersigned trustee for certain purposes therein expressed, recorded in Mtg. Book 26, page 107, Perquimans County Registry, default having been made by the grantors therein in the conditions of said deed of trust, and the undersigned trustee having been formally requested by the holder of the indebtedness therein secured to proceed to execute the power of sale therein conferred, the undersigned trustee in compliance with said request and in execution of said powers of sale, will on Monday the 11th day of February, 1952, at 12:00 o'clock Noon, at the Court House door in Hertford, Perquimans County, N. C., offer for sale at public outcry to the highest bidder for cash the following described tract or parcel of land lying and being in New Hope Township, Perquimans County, N. C., to wit:

BEGINNING at the corner of the David Simpson acre of land lying in the corner formed by the main Durrant's Neck Road and River Landing road also known as Newby's Landing Road, and running a northeast course down said Newby's Landing Road to Little River, thence with said River and northwesterly course to the Mc-Nider land, thence along the line of the said Mc-Nider land line and C. W. Grandy's land line to the Main Durrant's Neck Road, then down the road a southwesterly course to the intersection of the Main Road with the Newby's Landing River road, including the David Simpson acre of land, containing 150 acres more or less and being the land allotted to R. R. Perry in the division of the A. A. Perry land and known as the Geo. D. Newby land and designated as lot No. 4 in the in the division of the A. A. Perry land corded in Plat Book 2, pages 86-89 in the office of the Register of Deeds of Perquimans County, N. C.

The statutory deposit (G. S. 45-21.10) will be required of the successful bidder immediately after the sale. Dated and posted this January 9th, 1952.
C. R. HOLMES, Trustee.

Kidney Slow-Down
May Bring
Restless Nights

When kidney function slows down, many folks complain of nagging backache, headache, dizziness and loss of pep and energy. Don't suffer restless nights with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold, dampness or wrong diet may cause getting up nights or frequent passages. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often otherwise caused, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

DOAN'S PILLS

The undersigned reserves the right to reject any or all bids received. Dated and posted this 2nd day of January, 1952.

The Polio Toll

The National Foundation for Infantile Paralysis announced recently that 1951 was the third most costly year recorded in the fight against poliomyelitis. During the year, 28,668 children and adults contracted the disease. Only two years have produced larger totals.

It is interesting to note at this time—when the March of Dimes campaign is being concluded—that 46 states exhausted their March of Dimes funds in 1951 and had to turn to the National Foundation for advances totaling over 8,000,000. Only Rhode Island and Delaware were able to care for their victims without appealing to the National Foundation for funds.

Because of this, the Foundation went into debt to the extent of \$5,000,000 during the year. Keeping this in mind, and also that the National Foundation is very near the discovery of a polio vaccine, the urgency of the need for funds at this time is clearly obvious.

At no time since 1933, when the first birthday balls for President Roosevelt were held, has the need been more pressing than it is today. This newspaper suggests you contribute generously to the continuing fight.

It's Tough In the U. S. A.

The Communist world is being told daily by the Communist press in satellite countries that life is really tough in the United States.

One broadcast in Bulgaria recently reported that "more than two-thirds of the American people are unable to earn even a bare living." Another broadcast said, "Horse-meat has become a major part of the daily rations of the American working people."

The Communists blame these terrible circumstances on the American arms buildup and inflation and say we Americans try to conceal our present miseries by talking of the "good old times." That last bit of propaganda sounds suspiciously like the people in Bulgaria are currently doing a great deal of talking about the "good old times" themselves. The only difference in the two situations is that, compared to life in Bulgaria today, the "good old times" really were the "good old times."

In the United States, we talk about it but no one really would go back to the so-called "good old days" with all the inconveniences.

Few Shortages in 1952?

There is general optimism among top defense production officials as the result of President Truman's budget message to Congress. That message made it clear that a change in planning had been decided upon, which would eliminate the most severe civilian goods shortages expected to be encountered only a month or two ago.

The change in scheduling of defense production makes 1955, rather than 1953 the final year of the major rearmament effort. Because the rearmament program is to be stretched over a longer period of time, it will ease the pinch in supplies of sheet metal and aluminum for civilian goods. The new defense program will probably mean that automobile production, per quarter, will not be cut below the predicted limit of 930,000 units—which was the limit recently predicted, by the Defense Production Administration for the second quarter of this year.

In the first quarter, 1,006,000 units were allowed to be built. For a time, it had been feared that still further cuts were in the making for the third and fourth quarters of this year.

However, it now seems that the 930,000 unit quarter total will stand for the rest of the year. In addition, prospects are that, by January 1, 1953, the Defense Production Administration will allow increases in automobile production once again. The present pinch in sheet metal and aluminum is said to be the worst likely to be experienced and is expected by agency officials, to end sometime this summer, rather than late in the year as had been expected earlier.

Vets' Question Box

—About a year ago, I interrupted GI Bill training to return to military service. Because of my service, I was not able to be in training on the July 25, 1951 cut-off date. After I'm released, will I be permitted to continue my training and, if so, is there any

Here Friday!

THE GREATEST CAR EVER BUILT
IN THE LOW-PRICE FIELD

The big 1952 FORD

Out-performs them all!
Ford's completely new 101-h.p. high-compression, low-friction Six, with free-running overhead valves, is the most modern Six in the industry. And Ford's high-compression V-8, now 110 h.p., is the most powerful engine in the low-price field. Both are available with performance-proved Fordomatic Drive.

Out-rides them all!
The '52 Ford gives you riding comfort such as you have never before experienced in a car in the low-price field. With front springs tailored to the weight of each model, longer rear springs and specially mounted shock absorbers, Ford's Automatic Ride Control gives you the smoothest, easiest ride of them all—up level hills on straightaways, an easy level on curves.

Out-costs them all!
The '52 Ford has longer wheelbase, wider front track and greater length. It's big outside and big inside, with spacious seating for six and the largest luggage locker of them all.

Out-values them all!
With new custom pillars, picture windows all around and a new interior, Ford's '52 gives you more "all-around" value than ever in your car.

Out-rides them all!
The '52 Ford has longer wheelbase, wider front track and greater length. It's big outside and big inside, with spacious seating for six and the largest luggage locker of them all.

Out-values them all!
With new custom pillars, picture windows all around and a new interior, Ford's '52 gives you more "all-around" value than ever in your car.

Exclusive Power Pilot Economy!
Both the new Ford All-Range Motor Six and the Super-Six V-8 have the exclusive Ford Automatic Power Pilot. This completely integrated carburetor-turbo-combustion system gives you high-compression "pep" on "regular" gas.

New Coachcraft Bodies!
Ford's new Coachcraft Bodies are longer, stronger... smoother in their modern beauty. They offer new built-in construction which cuts out dirt, weather and noise. And Ford has more color and upholstery combinations than any other car in its field.

Full-Circle Visibility!
With new custom pillars, picture windows all around and a new interior, Ford's '52 gives you more "all-around" value than ever in your car.

Out-values them all!
