PEANUTS ISN'T PEANUTS IN NORTH CAROLINA

Peanuts mean a cash crop, and if recent "close-row" tests by the N. C. Agricultural Experiment Station prove successful, then Tarheel peanut-raising farmers can look forward to 600 to 1200 more pounds per acre! That means \$75 to \$150 per acre added income. We wish you luck, because it means another step forward in making North Carolina a better place in which to work, play and live.

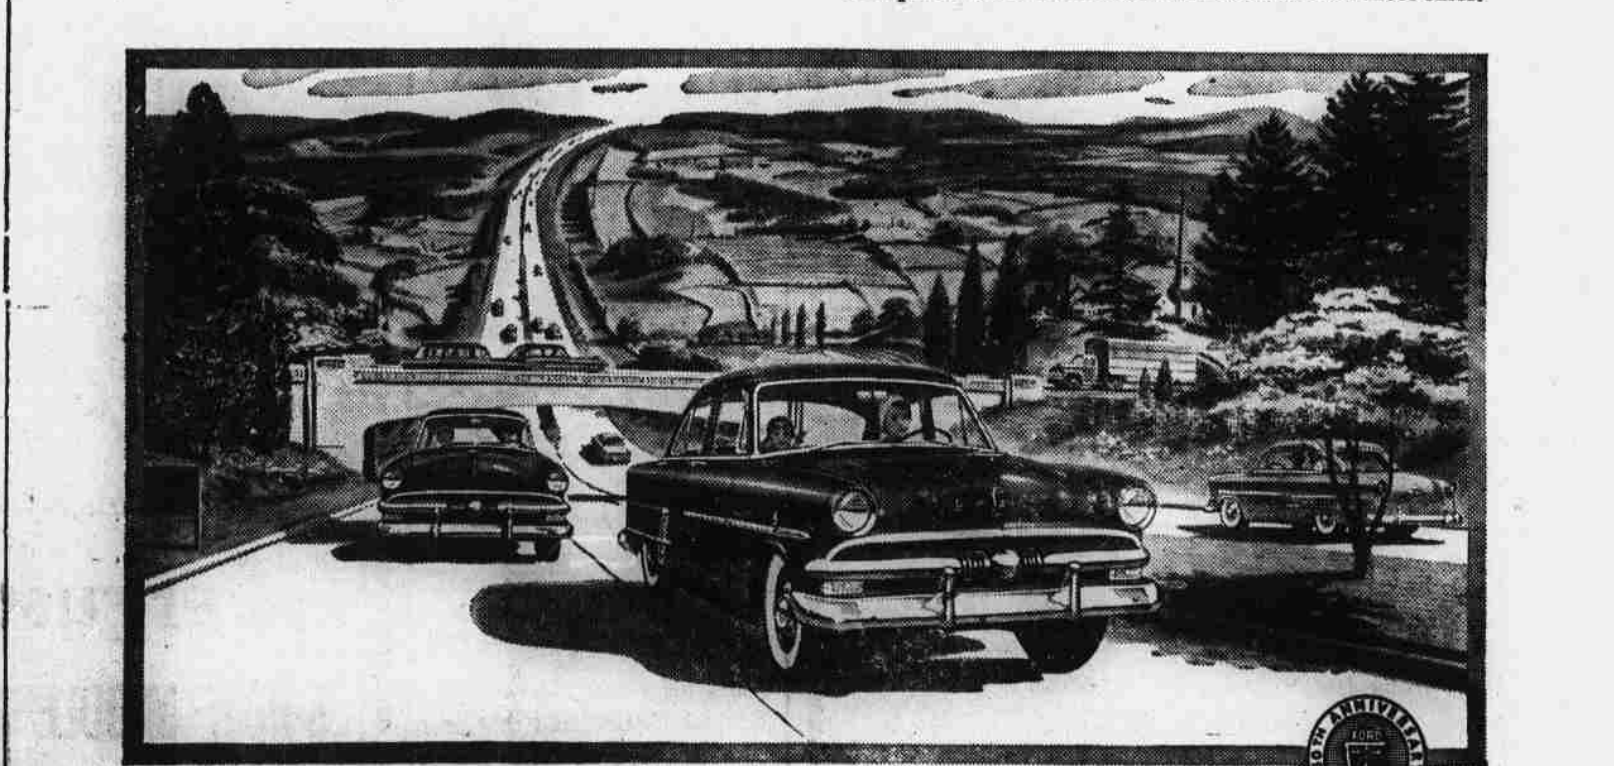

Also contributing to more pleasant living for North Carolinians is the brewing industry's self-regulation program where brewers, wholesalers and retailers—in counties where malt beverage sales are permitted under State control—cooperate to maintain wholesome conditions for the legal sale of beer and ale.

More people drive FORD V-8's than all other V-8's combined

AND IT'S STILL THE ONLY V-8 IN THE LOW-PRICE FIELD! No other engine in the world has enjoyed so much popularity as Ford's power-packed high-compression V-8. Today, 4 out of every 5 V-8's are Ford V-8's. And while other makers are scrambling to catch up, Ford and Ford alone offers a V-8 in the low-price field . . . and for hundreds less than most sixes.

FORD'S V-8 IS THE SAME TYPE OF ENGINE AMERICA'S COSTLIEST CARS ARE SWINGING TO!
 Six more makers in the last five years alone have switched to V-8 power in their most expensive models. Yet Ford's been offering this same type of V-8 power for over 20 years! What's more, Ford gives you your choice of Fordomatic, Overdrive or Conventional Drive—the widest choice of drives in the low-price field!

FORD'S V-8 GIVES MORE "GO" PER GALLON!
 Whether you choose Ford's 110-h.p. V-8 or the 101-h.p. Mileage Maker Six, your engine lives on a lean diet. For both offer the gas savings of Ford's exclusive Automatic Power Pilot which squeezes the last drop of power out of every drop of gas . . . "regular" at that! See and Value Check Ford's "Worth More." You'll agree Ford's worth more when you buy it, worth more when you sell it.
