**Peanut Vote Is Important**

Saturday is the big day for peanut farmers in the 44 counties in eastern North Carolina. It's the date of the referendum to determine if peanut farmers will assess themselves a token payment, annually for three years, to provide funds for promoting interest in all phases of peanut production.

All farmers who grow one or more acres of peanuts are eligible to participate in the referendum.

Each eligible voter is urged to cast his or her vote in the referendum. The interest in the referendum and the vote recorded will reflect the general attitude of peanut producers toward sponsorship of a program aimed at advancement for a major crop.

Interest in the referendum among producers in Perquimans County has been growing during the past month and The Weekly hopes each and every peanut farmer in the county will take time to cast his vote on the question during the referendum August 29.

**The Baseball Stretch**

The last month of baseball is rapidly approaching and the pennant races in the two Major Leagues will be decided within the next few weeks, the baseball fan will have to wait until next April for his fare, and, in the meantime, he will see a lot of ice and snow, of cold weather.

Baseball fans can glance back over the years and remember the highlights of major league competition during the off-season. There are certain periods which stand out as eras of notable baseball events and it seems that we are about to witness one this season.

Any older baseball fan will remember the reign of John McGraw and the Giants, or the successive championship teams of Connie Mack, or the powerful Yankee teams under Manager Joe McCarthy, not many years ago. Today fans are seeing an epic climax to another reign of baseball domination—that of Yankees under Casey Stengel.

If the New York Yankees of the American League succeed in winning the pennant again this year they will have won it five times in a row. If they go on to take the World Series, they will have done something no other major league baseball team ever accomplished.

In almost seventy-five years of baseball, such an event has not yet occurred. If it does this year, then 1953 will be a baseball year long remembered. Of course, the pennant races are seldom decided until the stretch drives in September and that is what makes the competition so keen over so long a period. While, of course, we do not know who will emerge victorious in each league, we point out that in March of this year we tipped our readers off that it would probably be the Yankees, and Brooklyn in the National League. At this stage those guesses seem to be standing up pretty well.

**Far more miles per gallon on the trips YOU take!**

On long trips, short trips, all trips, you get far greater gas mileage out of a '53 Chevrolet. It offers important savings in everyday driving over everyday roads!

Out to the golf course. Off for a week-end of fishing. Half across the country on a full-scale vacation. Wherever you go—however you drive—you're going to get there on a lot less gasoline in a fine new Chevrolet.

The truth is, this year's Chevrolet owners are enjoying the most important gain in economy in Chevrolet history. Plus more power. Faster acceleration. More "steam" for the steep hills.

That's the beauty of Chevrolet's two great high-compression engines—the new 115-h.p. "Blue-Flame" engine in Powerglide® models, and the advanced 108-h.p. "Thrifty-King" engine in gearshift models. They squeeze much more out of regular gasoline—more miles, more pleasure.

Along with this greater gas mileage, you get lower over-all upkeep costs. And Chevrolet is the lowest-priced line in its field. Drop in and let us show you how you'll be better off in every way with a 1953 Chevrolet!

\*Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine optional on "Two-Ten" and Bel Air models at extra cost.
