National Guard Units Trace Their Origin Back Three Centuries

Washington—Thanks to one of the earliest conscription orders in North America, two National Guard units can trace their military origins to October 7, 1636.

The 101st Engineer Combat Battalion of Medford, Mass., and the 182nd Infantry of Charlestown, Mass., lead the list of the 15 oldest battalion-size units in the U. S. Army. Their 317-year history derives from a general order of the Massachusetts Bay Colony which drafted every man and boy, with the exception of "magistrates and ministers," to the defense of white settlers from Indian raiders.

The American Indian could be described as the "father of the U. S. Army." The oldest units of our present Army structure were organized in defense against the Redskins. Since they began as militia, or "trained bands," all now are National Guard units.

In addition to the two Massachusetts units, the 15 oldest, in order of their organization, are:

- 176th Light Infantry, Richmond, Va. ("Virginia Blues"), 1652; 104th Infantry Regiment, Springfield, Mass., 1662; 102nd Infantry Regiment, New Haven, Conn., 1672; 169th Infantry Regiment, Hartford, Conn., 1672; Field Artillery Battalion, Stamford, Conn., 1672; 963rd Field Artillery Battalion, Norwalk, Conn., 1672; 201st Armored Field Artillery Battalion, Fairmont, W. Va., 1735; 197th Tank Battalion, Wheeling, W. Va., 1735; 128th Heavy Tank Battalion, Boston, Mass., 1741; 111th Infantry Regiment, Philadelphia, Pa., 1747; 130th Field Artillery Battalion, Savannah, Ga., 1751; 118th Field Artillery Battalion, Savannah, 1751; 967th Armored Field Artillery Battalion, Wilkes Barre, Pa., 1775.

number of State College personnel. The event, sponsored by the N. C. Federation of Home Demonstration Clubs and Farmers Convention, in cooperation with State College and the State Department of Agriculture, is being held in the spring for the second year in a row, to eliminate conflicts with harvesting.

Many families have indicated they will attend graduation ceremonies at State College, which end Sunday, June 6, and remain in Raleigh for Farm and Home Week, which begins the following day, according to Fred Sloan, Farm and Home Week secretary.

Speakers from off-campus will include the Rev. Ed. Agsten, West Raleigh Presbyterian Church; Doris Anderson, New Jersey home management specialist; L. Y. Ballentine, commissioner of agriculture; R. L. Beukenkamp, agricultural attaché, Netherlands Embassy; Harry B. Caldwell, master, State Grange.

Ben Douglas, head, Conservation and Development; Mrs. Dorothy Emerson, Maryland associate 4-H leader; E. Y. Floyd, director, Plant Food Institute, N. C. and Va.; Arnold Hoffman, state supervisor of music; Mrs. Vernon James, Elizabeth City, Route 4; Mrs. Miriam Kelley, Kentucky consumer marketing specialist.

True D. Morse, under-secretary of agriculture, Washington; Mose Kiser, president, N. C. Dairy Products Association; M. G. Mann, general manager, N. C. Cotton Growers Coop; Dr. Bessie McNeil, head, ECC home economics department; Mary Omen, home economist, J. C. Penny Co., New York; Lonnie Powell, N. C. recreation commission; Mrs. William C. Pressley, radio commentator, Raleigh; T. L. Reeves, dairyman, Pittsboro; Flake Shaw, executive vice-president, N. C. Farm Bureau.

Mrs. Pamela Stock, color consultant, B. C. Moore Company, New York; Reginald Styers, decorating consultant, High Point; T. B. Upchurch, Chairman of State Cotton Promotion Committee and Governor William B. Umstead.

LIBRARY NEWS

Two new books have been received in the Perquimans County Library this week. "The Rand McNally World Guide," which is a concise illustrated encyclopedia of world places arranged by countries and continents. More interesting than a regular atlas or gazetteer, it is a comprehensive picture in narrative, pictures, and maps of the world today.

The other new book is "A Stillness At Appomattox." An interpretive history rather than a factual account of the last year of the Civil War, it has been reviewed and highly praised by literary critics as an outstanding study of the dramatic last year of the war.

—Bulwer.

GOT A SUMMER COLD TAKE 666 for symptomatic RELIEF

Kidney Slow-Down May Bring Restless Nights

When kidney function slows down, many folks complain of nagging backache, headaches, dizziness and loss of pep and energy. Don't suffer restless nights with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold, dampness or wrong diet may cause getting up nights or frequent passages. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often otherwise caused, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush or "waste" Get Doan's Pills today!

Trouble In The Coal Industry

A significant economic development took place in Chicago recently when coal industry executives, representing half of the country's coal production, warned the Federal Government about the seriousness of conditions among the country's coal miners. The warning, coming from industry executives and not jobless miners themselves, is significant.

The executives warned the Administration that the coal industry is now experiencing a slump of greater proportions than any since the depression of the 1930's. The warning called attention to the fact that 100,000 miners are now jobless, and urged the Administration not to remain "blind" to the continuing closing of coal mines.

The coal industry executives believe the plight of the coal companies is closely connected with high imports of foreign residual oil. They also believe the Government is unaware of the damage such imports are doing in the domestic coal industry.

Coal industry executives are hitting the most vulnerable part of the present Republican Administration's armor. The domestic economy—under this Republican Administration—is continuing to undergo a recessionary test and if a pickup is not observed by November, the Republicans stand to lose strength in Congress.

Despite the great and continuing popularity of President Eisenhower, economies effected in Government, tax cuts voted, and other popular achievements, the average citizen—and hundreds of thousands of jobless workers are included among them—is highly sensitive to the economic trend of the day.

Reds On Run In Philippines

President Ramon Magsaysay is achieving promising results in his fight against Communist guerrillas in the Philippines. When the young, dynamic President took over the Philippines last year, he appealed to all Communist Huk to surrender and support his administration.

The Communists asked what terms Magsaysay offered, and he laid down strong and hard terms. But he promised fair treatment, fair trials and pardons for all those found not guilty, and a plan to help set up converted Communists in a new life.

The Communists rejected these hard terms and since that time Magsaysay and the Philippine Government have opened a dedicated offensive to wipe out the Communist guerrillas completely by the end of June. The drive is achieving success.

Recently the No. 1 leader of the Huk in the Islands, Luis Taruc, surrendered and he was sent to a stockade to face the many charges which had been lodged against him. Nevertheless, he offered to appeal to his comrades to surrender to the Government, and he admitted that the Philippine President was moving forward with an economic plan to meet the needs of the people.

This is a significant achievement and demonstrates what a program of force and energy can achieve against the Communists. The program must also include a major program to improve the lot of the people and Magsaysay's program includes just that. Magsaysay has proved once again that the only method in dealing with Communist guerrillas is through a policy of force and firmness.

Weak measures, half-hearted programs of reform, and a lack of courage in standing up to the Communist leaders has never yet eradicated Communism in any guerrilla-infested country. Magsaysay has never relented in warning the Communists they face trial and he has never offered to pardon their leaders. He has merely called on them to surrender, and promised fair trial but, at the same time, he has organized a military effort to wipe them out, and he is carrying it out with a thoroughness that is commendable. That should be an example to other Far Eastern countries.

An act of goodness is of itself an act of happiness. No reward coming after the event can compare with the sweet reward that went with it.
—Maurice Maeterlinck.

Treasurer Of U. S. Urges Motorists To Consider Children

One of the nation's greatest assets is its children, the Treasurer of the United States says.

Mrs. Ivy Baker Priest, speaking as a mother, points out that motor vehicles kill more children every year than any disease.

Mrs. Priest, who is one of the judges of the 1954 Carol Lane Awards for Traffic Safety, quoted National Safety Council figures that 8,500 pedestrians were killed last year.

"Of that total, almost a fourth were children under 14," she said.

"Spring means that the motorist must be doubly alert," Mrs. Priest pointed out. "Not only does spring bring more cars to streets and highways, but it is also a period of greater outdoor play and activity by children. Therefore, motorists should drive with extreme caution near schools, playgrounds, residential areas and other places where children may congregate.

"Always remember to expect the unexpected where children are concerned," Mrs. Priest warned. "Watch out for children suddenly darting into the street in pursuit of a ball, or for the youngster on a bicycle or roller skates. "Be mindful of the fact that every child pedestrian is a human caution sign," she said, "and you'll be doing your part to preserve our precious asset—our children—to enrich tomorrow's world."

Mrs. Priest has a long record of traffic safety activity. Prior to becoming Treasurer of the United States, she served as vice-president and director of the women's division of the Utah Safety Council in her home state.

She urged individual women as well as members of women's and parents' organizations to become active in traffic safety in their communities. Such women are eligible to enter the 1954 Carol Lane Awards for Traffic Safety—administered by the National Safety Council through a grant of the Shell Oil Co.—which are the nation's only awards to recognize the achievements of women in the field of accident prevention.

A \$1,000 defense bond and a bronze statuette will go to first place winners in both the individual and group categories. Three honorable mention awards are presented in each category. Nominations are open through June 30, 1954.

Women interested in entering the 1954 Carol Lane Awards may obtain additional information by writing Alice C. Mills, Director of Women's Activities, National Safety Council, 425 N. Michigan Ave., Chicago 11, Illinois.
