**Colonial Prices Low**  
**On Summer Beverages**

Keeping the family refrigerator and cool in hot summer weeks will be easy for Colonial customers who stock up on the wide variety of fruit juices and other beverages offered at reduced prices this week in all Colonial Stores.

And for summer parties and picnics, housewives will find an enticing array of bottled, cold refreshments such as grapefruit, grape, tomato, orange and vegetable juices at bargain prices.

In view of the large demand for beverages and party dishes of all kinds at this time of year, the shelves should be especially well stocked and customers for Colonial customers, officials of the company pointed out.

They were quick to emphasize, however, that Colonial's day-to-day low prices on all produce, meat and grocery items remain in effect and that the features on beverages constitute a part of "business" for money-minded shoppers.

Expect buying in tremendous quantities enables Colonial to effect savings on the purchase of canned goods as well as all other food items, and these savings are passed along to the customer in the form of lower prices in the stores, officials said.

They cited also Colonial's superior efficiency in warehousing and stock handling, which enables the food chain to move faster to the customer.

"That's what we mean when we say, 'Your Total Food Bill is Less When You Shop At Colonial.' It's a simple way of saving it up," one official said.
