The 85th Congress, having received the President's "State of the Union" message, is settling down to vast problems it must consider during the present session, among these being the President's request for authority to use troops to stop Communist expansion in the Middle East. Committee hearings are in progress now on this matter and Washington reports indicate the Eisenhower doctrine will be approved by Congress.

The national budget for the next fiscal year, expected to be presented for Congressional approval at a later date, is announced as the largest in peacetime history. Calling for expenditures of some 72 billion dollars the budget has higher appropriations for most departments, but the largest increase will be for national defense.

National economists are beginning to be a bit fearful on the point of increasing prices and wages. Some reports state the situation may develop into a consumers' strike that could affect the nation's economy. Government officials are reported disturbed over the situation and are frowning on any further hikes in wages and prices.

Great Britain has a new Prime Minister, in Harold Macmillan, who succeeded Sir Anthony Eden, Macmillan, whose mother was an American, is expected to bring about closer ties with the United States, healing the breach which developed after Eden's fiasco over the Suez Canal.

President Eisenhower this week is visiting areas in the western part of the nation, hard hit by the drought, to get a personal view of the problems facing the residents whose farms and livestock production have suffered because of the lack of rain during the past five years.

### 11 Days Left

Julian C. Powell, Perquimans County Tax Supervisor, today reminded property owners that only 11 days remain for listing property for 1957 taxes. He urged all property owners, who as yet have not listed their property to do so immediately in order to avoid the usual last minute rush for the annual task.

A schedule of hours for the township tax listers will be found elsewhere in the issue of this newspaper for the convenience of property owners wishing to list their property.

### Defendant Fined \$50 For Possessing Non Tax Paid Liquor

For possessing non tax paid liquor Robert Bragg, Jr., Negro, was fined \$50 and costs in Perquimans Recorder's Court here last Tuesday after he had entered a plea of guilty to the charge. Bragg's father, Robert Bragg, Sr., was taxed with the court costs after he submitted to a similar charge.

Other cases disposed of during this week's court term included those of Jake White who paid a fine of \$10 and costs after submitting to a charge of speeding and Pete Jackowski, who was fined \$6 and costs on a charge of speeding. Jackowski entered a plea of guilty to the charge.

Albert Davis entered a plea of guilty to a charge of driving without a license. He was ordered to pay a fine of \$25 and costs of court.

Costs of court were taxed against Rufus Spellman, Negro, who submitted to a charge of failing to yield the right of way.

Gene Norman, Negro, paid a fine of \$25 and court costs after pleading guilty to a charge of driving without a license.

A verdict of not guilty was returned in the case in which Wilbur Owens was charged with assault.

A capias was ordered issued for Cyrus Pierce who failed to appear to answer charges of possessing fireworks in the Town of Hertford. Pierce was held on bond or in jail pending a hearing next Tuesday.

The case of Jake Tillett, charged with a deadly weapon was continued at the request of the State.

## Accident Fatal To Truck Driver When Tree Crushes Cab

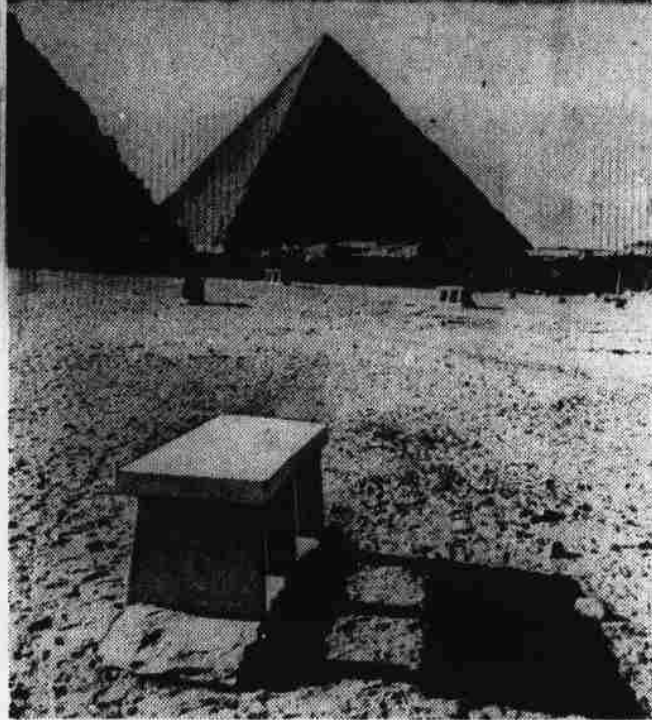

Wayland Clayton Hollowell, Jr., 29, native of Edenton and a resident of Bertie County, died from injuries in a freak accident which occurred on Edenton Road Street between King Street and the town limits, in Hertford at about 1:45 o'clock last Thursday afternoon.

Hollowell was driving a bread truck, headed south on Highway 17 when strong wind gusts, estimated at between 45 and 50 miles in velocity, twisted off the top of a large tree beside the highway and the tree fell on the truck cab crushing Hollowell.

The tree, prior to the accident, was located between the curb and the sidewalk, about four feet from the street. The wind snapped the tree off about five feet from the ground.

Patrolman B. R. Insee, who investigated the accident, reported Hollowell was traveling toward Edenton at the time of the accident at a slow rate of speed, and it was indicated he was unaware the tree was falling on the cab of his truck.

Hollowell was rushed to the Chowan Hospital following the accident, suffering from head injuries

CANAL CASUALTY — That which is missing is what is significant about this picture. Absent from the site of Egypt's brooding pyramids near Cairo are the tourists. They often fill the benches dotted across the nearby desert as points from which to observe the ancient tombs of the Pharaohs. The tourist trade is a casualty of the Middle East unrest, settled for the time being as surely as the hulks which block the Suez Canal.

## Corn Growers Face \$150,000 Loss In Acreage Reduction

Corn growers in Perquimans County stand to lose over \$150,000 annually under new acreage reduction plans of the Department of Agriculture, according to figures shown The Perquimans Weekly by N. C. Spivey, Perquimans County farmer.

On figures based upon 1956 crop yield and average payments, a close study of the loss comes near to \$166,000 than \$150,000, if the acreage reduction plan continues as it is now proposed.

Spivey told this reporter that at the beginning of corn allotments by the United States Department of Agriculture, and subsequent allotting to county farmers by the State, there were only some 10 or 12 North Carolina counties which were declared as commercial.

"Farmers are given allotments on the basis of the history of the farm he is tilling," Spivey said. "Therefore, there were only a few counties which qualified as commercial counties."

"But," he added, "our troubles started when the State began to bring in additional counties. Five were added this year, Tyrrell County among them, and now a total of 32 counties in the state have to share the allotment which is steadily being reduced to each state by USDA."

Spivey explained that in other sections of the State, where tobacco, cotton and peanuts are planted in larger quantities, reduced allotments in that area caused them to use corn as a fill in crop and over a period of time enough had been raised on the farms in a particular county so that it was declared a commercial one. Therefore, it became eligible for a regular yearly allotment, cutting the other counties in the process.

"We are continuing to be cut in our allotments," Spivey reiterated, "and not having other crops to fill in with it is the next thing to impossible for us to plant within our individual allotments."

Spivey said that he had talked to many farmers in Perquimans, Pasquotank and Chowan counties and "not a one said that he would be able to plant within his allotment." And if a farmer does not stay within his specified allotment he will not be under the support program set up by the government.

Last year, support price was \$1.40 to \$1.65 for those who stayed within their allotment but it was about \$1.25 for those who did not. Now, it is expected that corn this year will sell for no more than \$1 per bushel, and perhaps less, for those not under the support program.

### Construction Of Bank Starts Feb. 1

Construction work on the new Hertford Bank building will get under way about February 1, it was announced by the P. S. West Construction Company, which will have charge of the work.

Mr. West stated about 40 men will be employed in constructing the new building, 20 of whom will be employed from the local labor supply. The building, which will be 41 x 78 feet is expected to be completed about September, 1957.

### Local Draft Board To Induct 5 Men

Mrs. Scaff said registrants who wish to volunteer to fill the induction call on February 19 are urged to contact the local office on or before January 25.

### Methodist Church Participating In Prayer Program

Hundreds of Methodist churches in the North Carolina Conference, which embraces 56 counties in eastern North Carolina, are engaged in a mammoth conference-wide "Prayer and Vigil," and the Hertford Methodist Church has been assigned January 18 and 19 for its special participation in this program. From the hour of 9 o'clock on the night of January 18 through the hour of 9 o'clock on the morning of January 19, the local Methodist Church will be open for prayer and there will be someone at the altar every minute of that time, in a spirit of prayer and self-examination.

The "Prayer Life Movement" was conceived and called for by the General Methodist Conference meeting at Winston-Salem, N. C., in 1956. The call was for a world-wide mass revival of prayer for all Methodism and is being sponsored by the General Board of Evangelism of the Methodist Church. Each of the nine districts of the North Carolina Conference has been assigned one full week for its own active participation in the program which has as its goal that during every hour of 1957 someone, somewhere in the Methodist Church, will be at prayer. The Elizabeth City District assignment is for January 15-22, and the Hertford Church has been assigned a 12-hour period of the District assignment.

Mrs. Ed Barber, chairman of the Commission on Membership and Evangelism, is chairman of the local church participation, and in cooperation with the pastor has worked out a schedule whereby every organization of the church will have an opportunity to carry on this prayer vigil. Arrangements are also being made for quiet music at intervals during the evening. Following is a schedule, as released by Mrs. Barber, for the local church groups. Members of these groups are urged to be present during the hour for which their organization is responsible—or if this hour is not convenient, to attend the Prayer Vigil at least one hour during the 12-hour period.

### Public Hearing Is Called To Explain Zoning Ordinance

Residents of the Town of Hertford, interested in a proposed zoning ordinance for the Town, will have an opportunity to air their views at a public hearing which has been scheduled for Wednesday night, February 6, 1957. The public hearing will be conducted in the Municipal Building in Hertford, beginning at 7:30 o'clock.

Notice of the hearing was issued today by L. N. Hollowell, Chairman of the Planning Board, which in cooperation with a representative of the League of Municipalities conducted a survey of the town and have drawn up a summary of the proposed ordinance which will be explained to those attending the hearing on February 6.

The planning board announces, in its notice of the hearing, that a map proposing the various zones for the town, and a summary of the ordinance is now in file on the Town Clerk's office for public inspection.

Preliminary work toward adoption of a zoning ordinance here began last fall when the Town Board named the planning board composed of L. N. Hollowell, E. L. Reed, Julian A. White, John Cozton and Emmett Landrum. This board met with Leigh Wilson of the League of Municipalities who conducted a survey of Hertford, using the results of this survey to recommend to the planning board adoption of certain zoning regulations.

These regulations are subject to change through action taken at the public hearing or by action taken by the Board of Town Commissioners; however, once adopted by the Town Board the regulations can be changed only by ruling of an appeal board which will be selected after final adoption of the ordinance.

Property owners interested in this proposed zoning ordinance are urged to inspect the map and summary on file in the clerk's office and to attend the public hearing for full explanation of the ordinance.

## School Attendance Subject Of NCTA Meeting Held Wed.

The third local NCTA meeting for Perquimans County was held in the library of Perquimans Training School on Wednesday at 3:00 P. M. Dewey Newby was in charge of the topic for discussion, "A Program For Today's Children." LeGrand Summersett, principal of the King Street Elementary School, and Dr. S. E. Duncan, State Supervisor of Negro High Schools, were consultants.

Mr. Summersett talked on the topic from the point of view of children who drop out and those who stay in, with emphasis on devising a program that would meet the needs of both groups. He stated that a survey should be made with the objective of determining how the graduates from school meet and cope with competition in life as compared with the non-graduates. He also stated that the school's program should be analyzed to determine to what extent it prepares the children who drop out and those who stay in school to live and function properly in a democratic society.

Dr. Duncan spoke from the point of view of those children who stay in school, stating that the appeal of the program to the student will do more to keep him in school than any other medium.

A question and answer period followed the discussions.

### Four Fires During Past Eight Days

## Indians Win Second Conference Victory At Ahoskie 64-56

Coach Ike Perry's Perquimans Indians chalked up their second Albemarle Conference victory at the expense of Ahoskie last Friday night when Perquimans scored a 64-56 win over the Hertford County boys on the Ahoskie court. The Perquimans Squaws lost to the Ahoskie girls by a count of 46 to 56.

White, Matthews and Miller, scoring in double figures, led the Indian attack over Ahoskie. Perquimans rolled up a 21-8 advantage in the first quarter, after which Ahoskie came to life and in the second period knotted the count at 31-all at halftime. The Indians hit for a total of 16 points during the third quarter while Ahoskie scored 12 and this advantage was maintained by Perquimans throughout the final canto. Perquimans scored 17 points while Ahoskie garnered 13 in the fourth quarter.

Weather conditions forced a postponement of the games scheduled for Saturday.

### Winter Hits Area Snow Last Monday

Winter threw its icy blasts at this area early this week sending temperatures down below the freezing mark. Snow, sleet and rain fell early Monday morning, giving way to all snow later in the day but the snow melted as fast as it fell and the kiddies were deprived of an opportunity to enjoy snow-balling or sledding.

Thaw and rain fell again Tuesday, causing highway officials to advise motorists on traveling. The snow started about mid-afternoon, covering the ground. This turned to rain about 6:30 P. M., but traces of the snow remained Thursday morning.

### Mass Chest X-ray Planned This Area Late Next Fall

Dr. B. B. McGuire has received word from Dr. William A. Smith, Chief Tuberculosis Section Division of Epidemiology State Board of Health that three mobile units are scheduled to conduct a mass chest X-ray survey in the District for a period of 27 days, October 18 through November 23, 1957.

The first conference for pre-planning will be held some time in April, wrote Dr. Smith.

Dr. McGuire said, "though we have made great progress toward control of tuberculosis, we cannot be complacent about its continuing spread.

"The best way to curb the spread of tuberculosis," said Dr. McGuire, "is mass chest X-ray surveys and to find the cases in an early stage, for tuberculosis has not been whipped," Dr. McGuire concluded.

Every case comes from another case and many are walking TB cases that haven't had a medical check-up in years. It is hoped that when the survey coming to the District everyone over 14 or 15 will take advantage of the mobile unit and have a chest X-ray.
