PUZZLE PICTURE — U.S. Navy's icebreaker Staten Island had visitors while caught in an antarctic situation "for the birds." The photographer counted six penguins who came to see the ship, trapped temporarily by pressure ice in the Ross Sea. We count seven. There's an eighth bird in the picture, however. A whirlybird, its rotor and cab are unobtrusively visible behind ice ridge, background.

Indians Play Aces Friday Afternoon Seeking Fourth Win

The Perquimans Indians will be gunning for their fourth baseball victory of the season Friday afternoon when they tangle with their old rivals, the Edenton Aces, on Memorial Field in Hertford. Game time has been set for 2:15 P. M.

Edenton this year is coached by Johnny Morris, former star athlete, who has built a strong squad at the neighboring school. A game scheduled for last Tuesday between the Indians and Scotland Neck was postponed due to inclement weather and will be played at a later date.

Three Perquimans hitters combined in an almost perfect game at Gatesville last Thursday afternoon as the Indians blanked Gatesville 9 to 0. Welly White hurled the first four innings, Pete Hunter two and Parker Chesson one. The only man to reach base on them was Chappell, who was nicked by one of White's tosses in the third.

Perquimans blasted 14 hits. Pete Hunter had two singles and a double and Parker Chesson blasted a home run in the sixth with two on and added a double.

The win was Perquimans' third straight. The Indians beat Central 10-4 and Gatesville 3-1 in earlier contests.

THIS WEEK'S HEADLINES

Foreign ministers of NATO nations, meeting in Washington this week, reported agreement on a number of differences over the Berlin situation. This action is expected to unite Western proposals to be advanced at a later meeting with the Soviet ministers.

Meanwhile, in Washington it was revealed members of the Joint Chief of Staff advised a Congressional committee, the U. S. nuclear power is presently sufficient to break Russia in the event of a sneak attack by the Communists. Secretary of Defense McElroy was quoted as saying the U. S. military planning program is ahead and will remain ahead of the Soviet.

Russia announced Monday it will accept proposals submitted by U. S., Britain and France for a foreign ministers' meeting at Geneva by May around work for a possible summit meeting to be conducted at a later date. U. S. and France have hinted the summit meeting hinges on the success achieved first at the Geneva conference.

Lt. Gov. Luther Barnhardt reported from Raleigh Sunday that he does not believe the Legislature will enact any tax increases for the next two years but will trim budget proposals to fit the state's present income. A number of new tax proposals have been offered in the General Assembly but received little support.

Free Polio Clinic Will Be Conducted Here April 23-24

A free polio clinic for the children of Perquimans County will be conducted in Hertford on Thursday and Friday nights, April 23 and 24 under the sponsorship of the Hertford Junior Chamber of Commerce in cooperation with the Perquimans County Polio Committee, it was announced today by D. F. Reed, Jr., chairman of the Jaycee committee for the program.

The clinic, which will be under the direction and supervision of Dr. C. A. Davenport and Dr. T. P. Brinn, will offer the opportunity to children of the county to receive free polio vaccine shots and in the event a child received such shots at a previous clinic he may again come in for a booster shot. The clinic will be conducted in the Municipal Building on Grubb Street.

Plans for holding this clinic, Mr. Reed said, are now being completed and it is hoped, since the State has adopted a law requiring all school children to be inoculated for polio prior to entering school, that all children, white and colored, will use this opportunity to receive their polio shots.

Mr. Reed pointed out the vaccine shots will be given free, through the cooperation of the county polio committee, but in the event parents wish to contribute toward the clinic operation, donations will be accepted.

Parents and children alike are urged to make plans now to attend this clinic scheduled three weeks ago.

In connection with the plan for holding the clinic Mr. Reed said the following statement has been issued by Dr. J. A. Johnson, District Health Director:

"There seems to be considerable question as to the fourth polio shot. Most authorities recommend that a fourth or booster shot be given one year after the third shot. The Health Department is in complete accord with this policy. However, the polio vaccine supplied to the Health Department is supplied by the State Board of Health and we are not permitted to give a fourth shot from this supply."

WEEKLY LEGISLATIVE SUMMARY

Note: This is one of a series of weekly summaries prepared by the legislative staff of the Institute of Government on the work of the North Carolina General Assembly of 1959. It is confined to discussion of matters of general interest and major importance.

Bills continued to come in at a relatively slow rate this week, but the General Assembly moved rapidly in dealing with the bills already introduced. A total of 202 bills and resolutions have been ratified to date, as against 147 for the comparable 1957 date. These figures do not mean, however, that the Assembly is moving bills through without debate; almost no public bill has passed either house without considerable debate. Amendments are legion, and sessions are unusually long as even the most innocuous bills are debated at length.

Budget

The embattled Budget suffered another major assault as HB 375 was introduced by Reps. Barwick and Hostetter. The bill would appropriate \$6,180,010 for the biennium to provide additional public school personnel requested by the State Board of Education; major items include approximately \$1 million for guidance and counseling teachers, \$2 million for librarians, and \$2½ million for additional teachers to relieve principals of teaching duties. On Thursday the State Board of Education presented a request for \$44½ million above the figure recommended by the Advisory Budget Commission; part of the increase would be used for a 10% pay raise for teachers. The Highway Commission requested an additional \$20 million not recommended by the Budget Commission; Highway Director Babcock told the Joint Appropriations Committee that it costs about \$400 per mile each year to maintain the average unpaved road, \$700 per mile to be paved.

maintain paved secondary roads, and \$1300 per mile to maintain primary highways.

Agriculture

North Carolina's contribution to the interstate food market will be no small potatoes if HB 393 is enacted. The bill sets up an administrative committee to conduct referenda in 10 potato-producing counties on the question of whether or not to establish minimum sizes and grades of Irish potatoes which may be shipped in interstate commerce; if a referendum approves such standards, the Commissioner of Agriculture will issue regulations, and the committee will administer the program to effectuate the purposes of the act. HB 349 provides that producers of peaches and potatoes may demand refunds of marketing assessments only when assessments were paid in the year levied, and that the agency representing the commodity may sue to collect an assessment unless the producer files a protest within 30 days after the assessment is due. HB 347 changes the present law with respect to the inspection tax on feeds, and modifies the coverage of the law; an earlier bill, HB 143, which deals with the same subject, was reported favorably in the House on Thursday. HB 189, authorizing a referendum among flue-cured-tobacco farmers to impose a \$1-per-acre assessment for marketing promotion, passed the House Friday.
