More car than this Impala Sport Coupe is hard to find at any price.

clings to curves like a cat on a carpet!
the travel-lovin' Chevrolet

Nothing else but a dyed-in-the-wool sports car like the Corvette can take a turn with such solid assurance! The only thing that may be hard to understand is how it can offer the ride it does, along with so many other luxury-car virtues, and still compete in the low-price field. We use the word *compete* only in the sense of price. For with a ride as special as Chevy's, real competitors are hard to come by. There's a world of difference between Chevy's coil springs at all four wheels and the leaf springs that most other cars still use. Take a Chevy down a snaky back road and you'll feel the difference in the sure way it holds through curves and shoots over rough spots with hardly a ripple. This one's really made to travel and loves every minute of it.

Stop by your local authorized Chevrolet dealer's and sample Chevy's road sense!
