COME IN TODAY!

**The tax on talk that's still with you**

You are still paying a 10% Federal Tax on every telephone call you make. This tax was imposed on you as an "emergency" measure to help pay the bills of World War II. It's never been removed although the war has been over for 15 years. Your senators and congressmen will welcome your views on this unfair tax, so why not write today and ask them to take the tax out of your telephone talk.
