SUNDAY SCHOOL LESSON

(Continued From Page Four) emphasizes faith as more basic than works. We are to accept God's grace as it is expressed in Jesus Christ, and then we are

GRIN AND BEAR IT—It appears that "Taffy," a Pomeranian dog, just bears it all with a grin as "Yogi," a Sun Bear cub, gets it in his head to lean Taffy's way. Cage mate, nameless Puma cub, walks away from the whole thing, saying don't bother me, at a Bladensource, Md., pet shop.

to express our gratitude in our relation with others.

This lesson of service is still a difficult one to learn. We remain self-centered. We continually ask what we will get, what it will mean for us, what the reward will be. Can we, forgetting self, love and serve with Him in all the everyday experiences that come to us?

Let us hope, and pray, that as true Christians, we can.

Along with the many celebrities, the many-colored blooms of the city's more than one million azaleas are expected to be the stars of the show as always.

Despite the colder than normal winter, officials report the azaleas have come through in good condition and their millions of blooms will add color and beauty to the many gardens, both public and private, as Wilmington truly becomes the City of Azaleas.

The 1963 edition of the Azalea Festival officially begins Thursday, April 4, with the arrival of Queen Azalea XVI and she will rule over all Festival events, including riding a special float during the big Festival parade.

L. Bradford Tillery, Festival president, said announcement of the 1963 queen is expected to come within a few weeks. Queen Azalea XV in 1962 was lovely television star Whitney Blake. Other past queens have included Poolly Bergen, Esther Williams, Kathryn Grayson, Alexis Smith and Linda Christian.

TO MAKE YOUR GRAIN PAY MORE

MARKET IT THROUGH LIVESTOCK OR POULTRY WITH A PURINA CONCENTRATE

Home-grown grain can be fed most profitably when you mix it with the right amount of concentrate. That's because grain alone is not a balanced ration.

Purina Concentrates, like Purina Complete Chows, are backed by seventy years of continuing research, feed manufacturing experience, and quality control. Every Purina Concentrate must first prove its value at the Purina Research Farm in actual feeding

tests before it is allowed to wear the Check-erboard label.

We can show you exactly how much Purina to add to your grain to make a balanced ration, using our exclusive Check-R-Mixer. Bring your grain to our mill and have it ground and mixed with a Purina Concentrate. Make your grain pay better... the Purina Way.
