New Summer Crop

Several Perquimans farmers have seeded hairy indigo on their diverted acres this spring. This is a new summer cover crop in Perquimans County and is recommended on land where peanuts are to be grown in rotation with other crops. It will not become a pest in the rotation as no seed is produced under North Carolina conditions and plants germinating the following year from hard seed can easily be controlled by normal cultivation.

The seed should be broadcast from April 15 to July 1 at the rate of 8 to 10 pounds per acre. Inoculate seed with the peanut group of inoculum.

Hairy indigo is an eligible summer seeding under the 1963 ACP, at the rate of \$2.00 per acre.

Poppy Day Sales Set For Saturday

Mrs. Julian Powell, president of the American Legion Auxiliary, announced today that the 1963 Poppy Day will be observed here Saturday, May 25.

Auxiliary poppy chairman is Mrs. Lessie E. White.

The Girl Scouts will again assist with the sales, which will be conducted from the Court House lawn. A member of the American Legion Auxiliary will be on hand during the day, exchanging shifts of two hours each throughout the day.

Poppy Day as a memorial to American war dead and a tribute to disabled servicemen originated after the first World War. Soldiers returning from Europe in 1918 were familiar with the wild poppies which bloomed in the battlefields of France and Flanders. The American Legion Auxiliary says the first national Poppy Day in the United States was held in 1921.

Remember the original conception of "Poppy Day" has changed. At the beginning of offering the poppies, it was solely "to commemorate our war dead." Today our annual Poppy Day campaign honors our veterans of all wars living and dead. Today, with so many veterans, of such varied ages, the annual poppy program is vital in raising money to care for all needy veterans and their families. The slogan today is "Remember the dead by helping the living."
