## Farm Bureau President Urges Farmers To Apply For Gasoline Tax Refund

Perquimans County Farm Bureau President Rollo White is urging county farmers to apply this year for tax refunds on gasoline used for non-highway purposes during the fiscal year just ended.

"Perquimans County farmers lost a total of \$11,988 in 1961 by not applying for gas tax refunds," White reported. County farmers who did apply received a total of \$49,197 in refunds for gas used during 1961.

The average received per farm during 1961 in Perquimans County was \$108, he said.

"It is a well known fact that farmers are caught in a tight cost-price squeeze," the Farm Bureau leader said. "And farmers certainly should be more aware of this than anyone else. These refunds should be considered as added income."

"It is a pity when farmers do not reclaim this money simply because they do not take the trouble to apply."

Assistance and counsel is available to members again this year through the County Farm Bureau, White said. Those desiring help in filling out properly the forms should contact the office secretary at the Farm Bureau office.

Farmers who have applied previously will receive official forms in the mail. Application blanks are available through the County Farm Bureau for those who have not filed before. Members may also obtain special tax refund record books for use during the present fiscal year. A refund of ten cents per gallon is available on gasoline used for non-highway purposes during the fiscal year ended June 30, 1963. The refund includes the entire four cents paid per gallon in federal tax and six cents of the seven cents paid in state tax. Since one cent of the state gas tax is charged to pay the highway bond debt, it is not refundable. Tax funds not reclaimed by users are channeled into highway use.

The final date for application is September 30, 1963. The N. C. Revenue Department will not accept forms postmarked after this date. Invoices for gasoline used during the fiscal year for non-highway purposes must accompany the application.

## Classes Planned For Homemaking

A vital part of the homemaking program in high school is working with adults and out of school youth in the school community. The need and value of adults for continuing education is perhaps greater today than ever before because of the rapid changes of our times.

Many youths 16 years old and over who left school early may have an opportunity on continuing their education for more satisfying family living through adult education classes.

The adult program serves young people who are preparing to establish homes and assume the responsibility of parents as well as experienced homemakers who desire further education to meet new problems in homemaking. Besides classes being offered, the homemaking teacher is happy to give individual help whenever it is desired by the adults in her community.

At present plans are being made for a clothing class for beginners. The classes will be held in the homemaking department in the early fall.

Winslow at once opened fire and shot at least six times, Matthews said.

Bright swung the car around without stopping and drove to Hertford for help. His son was not injured.

Matthews said Bright had gone to Hertford to take his wife home as soon as he heard she was visiting the Winslows.

The first year the group consisted of one car with six persons. Since that time the popularity of the outing has grown so that last year over 70 from this area attended and plans are now being made for 125 to attend the Redskins-Giants game which will be played on October 6th. The group will have a special air conditioned railway car reserved for them and there is the possibility of having a Trailways bus take the group to the railroad station in Richmond and return.

Anyone desiring to attend this year's outing to enjoy the game and fellowship of the group should contact R. S. Monks, Willie Ainsley, Buddy Tilley, Jay Dillon, Emory White or Henry C. Sullivan. Eight boys received the mile swim patches. Eight the swimming merit badge, five the rowing merit badge, five the canoeing merit badge and one the wildlife badge.

A Perquimans County coroner's jury of six men, R. E. Vickers, Howard Pitt, Bill Elliott, Cecil White, Jay Dillon and James Wilder, held a Hertford service station operator over for indictment Tuesday in the June 25 hit and run death of William Wallace Hendricks, 67, a Route 1 farmer. After a two-hour inquest, the jury found probable cause against Donald Richard Matthews, 29, also of Route 1. Bond previously set at \$5,000 was lowered to \$2,000 at defense request.

Matthews will be tried during the October 27 term of Superior Court.

Hendricks' body was found June 26 at 9 A. M. about 12 hours after his death. Dr. T. P. Brinn, coroner, reported. Hendricks died instantly of multiple skull fractures and a broken spine.

Freeman Long, who lives near the scene on the Harvey Point Road, a half mile east of Hertford, testified he saw Hendricks walking past near his home. He had seen a car approaching weaving down the road in the same direction and heard a noise that suggested the car struck something. When the car did not stop, however, he did not investigate, Long said.

He described the vehicle as of the same body type and color as Matthews' car.

Highway Patrolman D. R. Cumbo reported finding a broken auto mirror at the scene. Cumbo said it fitted the mounting on Matthews' car, which ran into a ditch later June 25, two miles farther east.

Matthews reported the ditch accident the next morning but said he did not know anything about the mirror at the death scene.

Defense Attorney W. H. Oakey offered no evidence Tuesday.

The inquest had been postponed to allow time for physical evidence to be checked by the FBI laboratory in Washington but the report still has not been received here.
