Perquimans School Board Adopts New Policies For Disposing Of Complaints

Perquimans County School Board has enacted two operating policies intended to provide school personnel with more official support through uniform handling of school complaints.

The board members agreed to "refer all complaints to the proper administrative office (superintendent or principal) or insist they be presented in person or in writing to the board as a whole."

They also adopted a policy which said, "The board will provide adequate safeguards around the superintendent, principals, teachers and other personnel so that they may perform the proper function of education on a professional basis."

The board voted to acquire a 21.29 acre site adjacent to Perquimans High School (behind Harrell Gas & Coal Company) to use as a school bus parking lot.

The buses now must park on the athletic field. The property in question is owned by non-residents. It is 100 feet deep and runs for 562 feet along the present southern boundary of the school.

Miss Sue Perry White was employed as special education teacher (a new position) for grades 4-7 in the county's white schools. She will work with children needing extra help.

Mrs. Marion Riddick was hired as 7th grade teacher for Hertford Grammar and three more Perquimans Union School teachers were named: Mrs. Vivian Reid, Mrs. Daisy Williams and James Midgett.

ASCS Committee Nominations Now Being Received

A slate of nominees for membership on the ASC Community Committees for Perquimans County now is being established at the ASCS county office, Preston Nixon, chairman, Agricultural Stabilization and Conservation County Committee, has announced. The slate will include a minimum of six nominees, from which a Community Committee of three regular members and two alternates will be elected in each community by farmers eligible to cast ballots in the election. The slate of nominees must be completed by August 26, 1963.

The election will be held by mail. Eligible voters will be farm owners, tenants or sharecroppers who are taking part in one or more of the programs which the ASC Committee helps administer. The ballots will be tabulated publicly by the ASC County Committee on September 17, 1963, at the Agricultural Building in Hertford.

To be eligible to hold office as a committeeman, a person—among other qualifications—must be eligible to vote in the election, and must be a local resident. It is also highly desirable that nominees be currently active farmers who are best qualified for community committee work and who will be representative of the various sections and types of agriculture in the community.

'Nickels For Know-How' Are Providing Cotton Information

Cotton growers have been urged by R. M. Thompson, Perquimans County Extension Chairman, to take a look at what stepped-up research is doing for them.

Mr. Thompson says research is under way to help improve cotton quality, production efficiency and marketing techniques.

Much of the research is being financed with money from the Nickels for Know-How program sponsored by North Carolina farmers.

Scientists at North Carolina State, for example, are using "nickels" money: (1) to breed cottons for increased staple length and strength, (2) to develop gossypol free cotton that will permit greater use of cotton seed oil and meal, (3) to study deep plowing and fertilization in cotton, (4) to experiment with better chemical weed and insect controls, and (5) to study wild and nematode problems.

The Cotton Engineering Section of the N. C. Department of Agriculture is also using some "nickels" money to help ginners, processors and growers through quality testing and marketing work.

Mr. Thompson points out that the Nickels for Know-How program is a voluntary effort through which users of feed and fertilizer give five cents for each one-ton purchase for research and education.

Most of the money is used by the School of Agriculture at North Carolina State. Farmers vote every three years on whether they wish to continue this self-help program. The next vote comes on Tuesday, November 19 of this year.

More Applications Needed For Training Courses In Edenton

According to William A. Holler, manager of the Edenton Employment Security Commission office, more applications are needed for training courses to be offered in auto-truck mechanics and stenography in Edenton.

Perquimans Man Hurt In Mishap

Preston Copeland was injured about the head in a two car (nearly head-on) collision on U.S. 17 south of Hertford Sunday afternoon about 2:10 o'clock.

The accident occurred in front of White's Barbecue and Glenn's Barbecue.

Investigating Officer State Trooper Donald R. Cumbo reported that a 1952 Chevrolet being driven by David Lee Trueblood of Fayetteville, a native of this county, was leaving Glenn's, crossing the road to White's Barbecue. Trueblood pulled out in front of the car owned by Preston Copeland and occupied by Copeland, being driven by Edison Felton, Negro, of Route 2, Hertford. State Trooper Cumbo charged Trueblood with failure to yield the right of way.

In cases of this kind, the farm owner or operator must file an application in writing with the County Committee not later than September 15, 1963, showing that failure to plant at least 75% of the allotment was due to one or more of the listed conditions.
