Visit By Bloodmobile Very Successful; Area Leaders Well Pleased

Sidney Harmon and John Beers, co-chairmen of the American Red Cross blood program in Perquimans County, were well pleased with the turnout of local residents here Monday when the bloodmobile was here for the second visit of the year. One hundred and six pints of blood was donated by the Perquimans citizens.

The quota was 85 pints, thus it was well taken care of, with 106 pints of blood. Twenty were rejected.

The co-chairmen had high praise for all who reported at the Methodist Church to donate blood, where the unit was set up.

They especially thanked Joe Dempsey, principal of the Perquimans Union School, who brought over students from his school that accounted for 39 pints of the blood and for seven rejects.

Harmon and Beers expressed their appreciation to all who helped in any way in the program and to the following persons who helped at the church: Mrs. Robert White, Mrs. Evelyn Whedbee, Mrs. Edgar Long, Mrs. Mattie Matthews, Mrs. Arise White, Mrs. Ray Haskett, Mrs. Clinton Eley, Mrs. Charlie Murray, Mrs. Ruby Bateman, Mrs. Tom (Lizzie Lee) Cox, Mrs. John Beers and Mrs. Tom (Kitty) Brown.

FHA Is Planning National Week

Future Homemakers of America will be even busier than usual from April 4th to 10th. That is the week the half million members of this national youth organization observe National FHA Week. We salute the FHA members in the counties: Pasquotank, Perquimans, Camden, Currituck, Gates, Chowan, Washington, Dare and Tyrrell.

Future Homemakers of America are home economics students in junior and senior high schools. The organization founded 20 years ago, states as its creed: "We face the future with warm courage and high hope. For we are the builders of homes — for America's future. Homes where living will be the expression of everything that is good and fair. Homes where truth and love and security and faith will be realities, not dreams."

A national program of work guides the activities of individual FHA members and chapters. Projects on this year's program are: (1) You and your values; (2) Focus on family friendship; (3) Marriage calls for preparation; (4) Stay in school; (5) Action for citizenship.

All projects Miss Aldridge stated, further FHA's overall goal, which is to help individuals improve personal, family and community living.

Future Homemakers of America is sponsored by the U. S. Office of Education and the American Home Economics Association but receives its financial support from the dues of members.

Representative Lane Puts Bill In House Hopper

Archie T. Lane, Sr., Perquimans County Representative in the General Assembly, introduced in the House last week a bill (HB55). This bill, according to Mr. Lane, is designed to clarify the public welfare laws with respect to the operation of nursing homes and boarding homes by welfare officials and their relatives.

"The payment of public welfare or public assistance funds to a nursing home or boarding home owned or operated in whole or in part by certain individuals. The statute as it presently reads is not clear, and its coverage is so broad that in some counties it covers boarding homes needed for the care of indigent aged persons.

As the statute now stands, it applies to a member of the State Board of Public Welfare, a county welfare board and a board of county commissioners, and it applies to an employee of a state or county welfare department. This coverage is certainly appropriate. But by its present form, it apparently does not apply to the spouse of a board member or employee, although it does apply to the relative of a spouse. A revision of the section to clarify this situation is desirable.

It also seems to apply to a person related to the spouse of a relative of a board member or employee, and clearly this carries the exclusion too far. It is quite likely that this was not intended by the Legislature when the law was enacted, but it is possible interpretation of the present statute.

HB55 sets out clearly the coverage. Payment of public welfare or public assistance funds may not be made to a nursing home or boarding home operated in whole or in part by the following individuals: (1) A member of the State Board of Public Welfare or any county board of public welfare or of any board of county commissioners; (2) Any official or employee of the State Department of Public Welfare or of any county department of public welfare; (3) A parent, grandparent, child, grandchild, brother

or sister of any board member or employee; (4) A spouse of any board member or employee; (5) The spouse of a parent, child, brother or sister of any board member or employee.

The coverage is thus made clear, and it is limited to those persons who might be in a position to influence welfare decisions. This was the intent of the 1959 General Assembly, which originally enacted the present law.

The Commissioner of Public Welfare and the State Board of Public Welfare have been consulted about this matter. They supported the bill on providing needed clarification of the law as providing appropriate coverage.

Representative Lane concluded in his explanation of HB55.

Hertford BPW Club Joins Others In Big Anniversary

The Hertford Business and Professional Women's Club, along with other clubs over the nation, are observing National Business and Professional Women's Week from March 7 to 13. The local club with Mrs. Carolyn Faye R. Fowler as chairman of BPW Week, is having a display in one of the local store windows to highlight activities of the week.

On Wednesday, several members of the club plan to be in Raleigh when State Legislative Day will be observed. At this time, members will be acquainted with the work of the General Assembly. Then at 3:30 P. M., they will attend a tea given by Mrs. Dan K. Moore at

On February 26, the Perquimans County Chamber of Commerce board of directors voted unanimously in favor of endorsing or the sale of general obligation bonds for the purpose of construction of waste treatment facilities in Hertford.

Dick Lowrance executive manager of the Chamber of Commerce, stated that "the passing of a general obligation bond issue would save the citizens of Hertford countless dollars. The waste treatment facilities must be built in the near future, and revenue bonds can be expected to carry a much higher interest rate. Therefore, the passing of a general obligation bond issue will allow the Hertford municipality to comply with the laws relating to stream sanitation in the most economical way."

The Chamber of Commerce urges the citizens of Hertford to cast their ballots in favor of a general bond issue as soon as practical.

Now, this week, The Perquimans Weekly received the following letter from the Perquimans County Chamber of Commerce, Inc.:

"The members of the Perquimans County Chamber of Commerce board of directors endorsed a proposed bond issue for the Town of Hertford due to the fact that it will save its citizens many dollars in tax money. The Chamber of Commerce did not accept or reject the proposed location for the waste treatment plant and we have no comment whatsoever pertaining to the proposed location of the same. The Chamber of Commerce supports any and all projects that help the people of Hertford and all other townships within the county. We sincerely hope that you will explain to your subscribers the thoughts of the Chamber of Commerce pertaining to the bond issue."

We here at The Perquimans Weekly printed the endorsement or first notice from the Chamber of Commerce that appears in the first part of this story, just as it came in to us. We did not change or alter their statement in any way. We did, however, tie on at the bottom of their story which ended in quote marks, a paragraph or two relating to a map that the Town of Hertford had in the same issue for the purpose of showing the location. We did not say that the Chamber of Commerce favored or did not favor the location or site. We only printed their endorsement to the voting on the proposed bond issue. We certainly hope that this clarifies the situation to the Chamber of Commerce and to the public.

An editorial in The Perquimans Weekly also endorsed the bond issue and stated why the people should vote for it. We did not endorse the location. The location, at the time of the editorial writing was not even considered as it is a separate thing from the bond issue election.
