The 20th annual Albemarle Livestock Show and Sale was held on April 28 at the Scott and Halstead Produce Terminal in Elizabeth City. Five counties were represented in this show. Commissioners Oppose Tax Exemption Bill

Now In Legislature

Jesse Tadlock Taken In Death

The Board of Perquimans County Commissioners meeting here Monday in their May meeting voted to request Senator J. Emmett Winslow, 1st District Senator and County Representative Archie T. Lane, Sr., to vote against and use their influence in defeating the passage of SB317. "The bill, the first property tax exemption bill of the session, was introduced on Wednesday by Senator MacLean of Robeson and others, would exempt property stored in public warehouses and intended for sale or resale. If this bill passes, it is very probable that much inventory now subject to taxation will find its way into public warehouses on January 1 of each year.

However, it is also probable that a bill to exempt all inventories would then be introduced. And owners of other kinds of property are seeking support for exemption favoring them. This would result in a major fight on our hands to protect our property tax bases, and avoid a substantial shift of tax burden to real property. Also at Monday's meeting, J. K. White, Perquimans County Tax Collector, was ordered by the commissioners, to advertise in June and to sell on the first Monday in July, all real estate on which 1964 taxes are due and unpaid, in compliance with the laws of the State of North Carolina. The Board approved the contract of W. R. West Exterminating Co., for five year inspection of the Perquimans County Courthouse and of the Agricultural Building. Beer license was approved for D. J. White of Route 3, Hertford.

Army Worm Control Noted

For the past several years small grain farmers have had problems with army worms in wheat and oats. These insects usually infest the small grains the heaviest about the second week of May. To control these insects, dust must be applied by either an airplane or helicopter. There are several insecticides that can be used. These are DDT, Toxophene or the combination of DDT and Toxophene applied at the rate of 20 pounds to the acre. Sevin has also done a good job at the rate of 20 pounds of 10 per cent to the acre. One of the best ways to detect army worms is to look for birds diving into the small grain. These birds feed on the insects, and if you detect the birds you should check for insects.

Unsigned Letter Not Appreciated

On Tuesday afternoon, a letter postmarked Durants Neck and addressed to The Perquimans Weekly, arrived in the Weekly mail box. However, all that was enclosed was the church page from last week's issue of the paper and taped neatly with cellophane tape in a most unbecoming way, right across the church page, were two liquor ads from the paper. There wasn't a name or a note attached—so we have no idea what the person was getting at by attaching a liquor ad to the church page, which we here at the paper thought most unbecoming. We run liquor ads in our paper, but in the history of this newspaper "we have never placed one on the church page". Whoever wrote the letter didn't have the nerve to put their name—there wasn't even a return address—but we bet they'll get this answer.
