Parker Chesson Gets Recognition

Parker Chesson, teacher at the College of the Albemarle in Elizabeth City, received recognition in the September-November issue of The Open Door, a quarterly Journal of the North Carolina Department of Community Colleges.

Chesson, 24-year-old biology teacher at the College of the Albemarle, is a graduate of Perquimans County High School and is the son of Mr. and Mrs. Jake Chesson of Hertford.

Parker Chesson joined the College of the Albemarle faculty a little more than a year ago. However, he had been looking at the college for a year or two before he began teaching. One of his reasons for selecting the Elizabeth City school was its size. He prefers a small school where the faculty and students "are close" to a large school where students often become just a number.

Last year, in addition to biology, he taught a class in geography at the Elizabeth City school. Mr. Chesson received both his bachelor's and master's degrees at East Carolina College. In addition to this work, anticipating teaching at the College of the Albemarle, he attended classes at the Duke University Marine Laboratory at Beaufort. He already is thinking about further education, if all goes well, he would like to begin working toward a doctorate, he would like to begin working toward this goal next summer.

Methodists Plan Special Service

Rev. R. L. Bame, minister of the Hertford Methodist Church, has announced that the local Methodist Church will join in the World-wide Communion Sunday, October 2, which demonstrates the truth of the 1965 theme, "We Have a Fellowship."

The Methodist Church joins in this observance, sensing in itself a unique fellowship. Traditionally the Communion service has presented the opportunity of helping others. Through the Fellowship of Suffering and Service, Methodists are able to put their faith into action. Emergency help is provided for those who are innocent victims of disaster. Through the Methodist Committee for Overseas Relief and companion agencies, immediate help is provided for those needing food, clothing, medicine and even temporary shelter.

One-half of the Fellowship of Suffering and Service offering goes to help MCO accomplish these things.

The sons and daughters of Methodists who are in a branch of the armed services are not forgotten. Fellowship is extended to them through the chaplains and through the pastors and churches near military installations.

Comments Made On Tax Issue

What is the industrial development tax and how will it be used? If the residents of Perquimans County vote favorably on this issue on November 2, 1965, it will give the county commissioners the power to levy a tax not to exceed 5 cents per one hundred dollar valuation of county property. The money received from this tax would be used to encourage the location of new industry in our county. This would be done in the following manner: The county commissioners would set up a board or commission known as an Economic Development Commission. This group would be directly responsible to the board of county commissioners.

The economic group could, if sufficient funds were available, hire a trained professional in the area of economic development to work for our county.

Mr. Tom Willis, of the East Carolina Development Corporation, met with a group of interested Perquimans County residents.

Deadline Nears For Calendar

Welly White, chairman of the Hertford Jaycees' annual community birthday calendar project this year, stated today that the deadline for the sale of the calendars is Friday, October 15.

Mr. White urges all who have not yet purchased their calendar to contact any of the Jaycee members, as it's the club's desire to get everyone in on this drive.

Proceeds from the sale of the birthday calendars, as usual, will be used for the underprivileged children of this area for clothing and toys to be distributed at the Jaycees' annual Christmas party held for needy ones.

The calendars have proven very popular over the years that the Jaycees have been selling them. Cancer Crusade Is Underway

As an important phase of its 1965 educational and fund-raising Crusade against Cancer, the American Cancer Society is distributing a life-saving leaflet.

"We hope the leaflet, entitled 'Answers to Questions About Cancer Which Concern You,' will reach every home in Perquimans County," Mr. Harmon said. "If read and acted upon, we could save half of those who develop cancer instead of one out of three as we are today."

The leaflet poses four questions and then answers them. Are we getting anywhere against cancer?

Yes, gains in diagnosis and treatment have made it possible for over a million Americans to be alive today, cured of cancer. Physicians could cure about half of all cancer patients, if people came for examination in time. With present medical knowledge, uterine cancer could be practically eliminated. Many people could be cured of cancer of the colon and rectum and other major cancer killers. Noteworthy progress is being made in research support by the government and the American Cancer Society.

What signs of symptoms may mean cancer?

These are Cancer's Seven Danger Signals: (1) Unusual bleeding or discharge. (2) A lump or thickening in the breast.
