## Cancer Crusade

Continued from Page One  
breast or elsewhere. (3) A sore that does not heal. (4) Change in bowel or bladder habits. (5) Hoarseness or cough. (6) Indigestion or difficulty in swallowing. (7) Change in a wart or mole.

If a signal lasts longer than two weeks, consult a physician. Cancer starts and may spread without pain. A danger signal may seem unimportant, but do not delay.

What protection is there against cancer?

The best protection is to have a complete physical examination each year and to act promptly on Cancer's Seven Danger Signals. Against lung cancer? Don't smoke cigarettes. Against uterine cancer? Women should have the "Pap" test annually. Against breast cancer? Women should learn to examine their breasts once a month. If they find anything of concern, they should see their physician at once. Against cancer of the colon and rectum? Men and women should have a "procto" (rectum and colon) examination annually.

What progress is being made against leukemia? As yet there is no cure,

but scientists have made it possible to extend the lives of many leukemia patients for months and even years. There is great hope for the future. More research is being supported by the American Cancer Society on leukemia than on any other form of cancer.

The leaflet concludes with this appeal: "Tell your family and tell your neighbors the hopeful facts about cancer."

## Mrs. Goodwin

Continued from Page One  
one or more fields of civic or professional endeavor.

Mrs. Lyndon B. Johnson, who feels that the achievements and abilities of women are subjects of particular importance, serves as honorary chairman of the Board of Advisory Editors for the publication.

Selections for Outstanding Young Women of America were made by the Board of Advisory Editors, Mrs. Dexter O. Arnold, honorary president, General Federation of Women's Clubs, is chairman. Young women of our country who are contributing so very much to their communities are selected. Guidelines for selection include unselfish service to

others, charitable activities, community service, professional excellence, business advancement and civic and professional recognition.

(Editor's Note: We hope at The Perquimans Weekly think the judges couldn't have selected anyone more fitting and deserving for this outstanding award than Mrs. Earlie Goodwin).

## Tax Issue

Continued from Page One  
mans County residents recently and explained that the eastern part of North Carolina is now experiencing a tremendous influx of new industry, and that the places that are landing these industrial plants are those that have a full time commission working for the location of industry in their community. He pointed out that the economic development tax is the only way to equally distribute the burden of the expense involved in setting up an economic development commission. One of the

## Overton Given New Assignment

Army Specialist Five Lester D. Overton, whose wife, questions asked was "How will agricultural development be affected if we pursue such a program?" Mr. Willis pointed out the peanut processing plant in Edenton, the pulp plant in Plymouth, the formica plant in Farmville, the sweet potato plant in Windsor, and the grain facilities in Williamston, as examples of agricultural related industries that are available. He stated that the location of this type of industrial plants have a direct effect on the agricultural economy of any community. He also pointed out that unless some secondary income can be derived by many of our farmers as well as the tenants that they will have to leave the farms and thus the supply of agricultural labor will diminish.

Margret lives on Route 3, Box 88, Hertford, N. C., was assigned to the 554th Engineer Company at Fort Lewis, Wash., Aug. 30.

Specialist Overton, an engineer equipment repairman in the company, entered the Army in February 1951 and was last stationed in France. He is the son of Mr. and Mrs. David D. Overton, Route 3, Box 146, Hertford, and a 1949 graduate of Perquimans Training School in Winfall.
